NOW, MR. HOOVER!
CAL USED TO TELL
OF THIS FINE LAND!

Special To The News:
BOSTON, April 24.—Say that speech of Mr. Hoover's was just about one of the strongest things a president ever said when he said life and property are less sure here than any other civilized country in the world.

The only difference of opinion we can have about that is, do we come under the heading of civilized. I doubt that more than I do the statement.

One thing, he hadn't spoken two minutes till you could tell the same man hadn't written that speech that had been in there. It was about the condition of the country, but not the same condition that Calvin used to enunciate to us.

Babe Ruth came up yesterday afternoon and didn't knock anything but a single. I never was so disgusted.

Yours,
WILL.

PA NEW OBSERVES

Taking the huge grader through town yesterday afternoon caused quite an excitement. Despite the cumbersome of the load, the workmen were not long in getting it hustled over the streets to its destination at the North street bridge.

Apparently the frost has not injured the fruit crop as yet, according to reports from various farm specialists.

Reports from Howard Lightner, local State highway superintendent, are that the county dirt roads are in bad shape. "Bad" meaning mud abounds and travel by car is uncertain.

Though aviation is not the feature that it was formerly, it is still the source of more than usual interest. Local dentists are planning their educational campaign by air for the week of April 29. The state plane will land here at the Bradford flying field, according to the announcement, and will distribute posters and perhaps prize winning numbers about.

Members of the library staff are busy engaged in getting the new East Side branch whipped into shape for the opening on May 1. The branch will contain 1500 volumes.

Registering fare boxes that were in use on the Highland avenue car line for several weeks as an experiment are now being tried out on the Erie line. The old fare boxes are back in use on the Highland line temporarily.

Despite the backward weather of the past few weeks, hyacinths are breaking out in bloom in some of the flower gardens about the city.

It appears to Pa News that transportation of such an immense piece of structural steel as the bridge girder that was brought here yesterday over the highways of this section, or in the state, for that matter, is not to be tolerated. State highways were built to be used for transporting immense targets of this nature. There's reason in everything.

Harlansburg will soon be up with the head of the procession in the matter of good school accommodations. The contracts have been awarded for a modern school for the Harlansburg community. It is believed in passing that Lawrence

Fund For New Church Is Near \$100,000 Already

New Epworth M. E. Church Fund To Be Completed Early In May

MEMBERS OF BOARDS SUBSCRIBE EARLY

Enthusiasm Shown At Meeting Held An Tuesday Evening

While the formal campaign of solicitation of funds for the new Epworth M. E. church has not yet been started, there is right today \$95,701 out of a total to be asked for of \$175,000. Norman Clark, chairman of the finance committee of the church, under whose direction the campaign for funds is being staged stated today that the campaign would open on May 6th, and that a large part of the remaining \$80,000 would be secured in an every member canvass.

A joint meeting of the official boards of the Epworth church and the Grace M. E. which has merged with Epworth, was held last night in the dining room of the present Epworth church. At this meeting was present the members and their families. Following the dinner, Mr. Clark took charge of an impromptu money raising venture and at the end of the evening it was announced that the board members had subscribed \$54,701, a most unusual amount. The difference between this figure and \$95,701 is represented by contributions that have been made by other members.

Building To Be Expedited.

With this most remarkable subscribing of funds, the building committee has announced that it will expedite the work of getting the new church erected as much as possible. Senator George T. Weingartner, who is chairman of the building committee announced that an architect would be selected and the excavation work started as soon as it is humanly possible.

The site of the new Epworth church will be at the corner of East Washington street and Butler avenue. It is planned to so design the church that the entire vacant corner there will be utilized, and in the rear of the church there will be a parking space capable of accommodating close to 100 automobiles.

As a courtesy to the Grace M. E. church, which is now merged and is a part of Epworth, the Sunday School room of the new church will be known as Grace Chapel.

Hold Tureen Dinner.

The meeting of the two boards on Tuesday evening opened with a tureen dinner. Subjects for short addresses were assigned in a rather unique way and the following speakers discovered they were on the program. Their names and subjects follow.

Crash Ends Career

Plans for a newspaper career and for her marriage in May are over for Miss Cecelia Kelly, 23, of Kansas City, Mo., one of the victims of the mid-air crash between a passenger ship and an army pursuit plane at San Diego, Cal., in which six met death. Miss Kelly, a member of the staff of a Phoenix, Ariz., newspaper, was to wed a Denver newspaperman next month.

Two Toronto Men Meet Death When Airplane Crashes

Two Wealthy Toronto, Canada Citizens Burned To Death As Plane Takes Fire

ACCIDENT OCCURS OVER AIRDROME

Both Victims Are Prominently Known In Canada; Were Aviation Enthusiasts

LEASIDE AIRDROME TORONTO, Ont., April 24.—One of the worst tragedies in Canadian aviation history was on record today with the deaths of William Mackenzie and Noel Marshall, wealthy Toronto flying enthusiasts who were burned to death in a crash in the air field here.

The men were flying a Moth plane directly over the airdrome last night. Field observers were horrified when the plane swerved suddenly at a height of 150 feet and hurtled earthward.

Plane Takes Fire.

Airdrome workers rushed toward the plane when it crashed but they were still some distance away when the gas tank exploded with a roar. The plane was immediately enveloped in flames which balked efforts of the field crew to rescue the imprisoned fliers who were thought to be still alive.

When the fire was extinguished the charred bodies of Mackenzie and Marshall were taken from the cockpit where the flames had cut off their escape.

Mackenzie was a grandson of the late Sir William Mackenzie, Canadian railroad builder and pioneer. Marshall was a grandson of the late Col. Noel Marshall, president of the Standard Fuel Company of Toronto.

House Leaders Assure Hoover That Farm Measure Will Be Through In 48 Hours

OPPOSITION IS GAINING STRENGTH

Believed That Hoover's Wishes Will Be Granted When New Bill Is Finally Passed

By WILLIAM S. NEAL

WASHINGTON, April 24.—Farm relief legislation dominated both branches of congress today with House leaders promising passage of the first farm bill of the special session within 48 hours.

While backers of the export Debenure plan jabbing away at President Hoover for his open opposition, the House program called for the adoption of a program declared to be entirely satisfactory to him.

The House bill was opened for amendment after 5 days of exhaustive debate. Despite the expected presentation of a score of amendments and some bitter opposition, Rep. Haugen (R. of Iowa, chairman of the agricultural committee, was confident of a final vote tomorrow.

WASHINGTON, April 24.—One of the most profound constitutional questions ever to provoke senatorial controversy was being debated by lawyers on Capitol Hill today as a result of the declaration by Senator William H. Malaria Contracted By Passengers On South African Trip

SHIP PROCEEDS TO SOUTHAMPTON

CHERBOURG, France, April 24.—The Canadian Pacific liner Duchess of Athol, upon which six persons died during her recent African cruise, called at this port today and disembarked 100 passengers. The remainder proceeded to Southampton, Eng.

Captain E. Griffith, in a statement to International News Service, confirmed that four passengers died of malignant malaria. He said that one steward died of liver trouble and another from blood poisoning.

All went well until some of the passengers landed at Cape Town and traveled overland to Victoria Falls National park. They rejoined the ship at Durban. Then the liner called at Dar-es-Salaam, Zanzibar and Mombasa.

"Shortly after leaving Mombasa the weather became very hot, the thermometer registering 100 degrees in the sun. Seven passengers became ill of high fever. We thought at first it was the result of the heat, but later the ship's surgeon diagnosed the ailment as malignant malaria contracted at Victoria Falls. Four died; three recovered.

"All were given proper medical attention. We had a specialist come from Cairo and one from another port. Otherwise the ship's doctor and his assistants handled the cases."

A. H. Brucke of Hollywood, Calif., whose wife died on the voyage, had her body cremated in Italy.

Bullet-Riddled Bodies Of Two Racketeers Found; Believed Revenge Work

CLEVELAND, O., April 24.—The battered, bullet-riddled bodies of two men, found early today in a ditch in Brooklyn village, south of here, were identified by police as those of Morris "Skumpy" Fuerstman and Isadore Schiller, both of Cleveland. Police say both had long records.

Police believe the two were "taken for a ride" by Detroit gangsters. It was reported that the pair "hit-jacked" a Detroit motor truck a few days ago and apparently, police say, swift vengeance was meted out by racketeers from that city.

A desire for cheap publicity prompted Harold Hushman, 15, shown here, of Youngstown, O., to concoct a story of having abducted Beatrice Rosenbaum, 10, a year ago and then abandoned her to die "because she disliked her brother." GIBSON'S SPEECH BEING COMMENDED

Little Or No Prospects For Early Conference; No Action Before 1931

By GEORGE R. HOLMES
International News Service Staff Correspondent.

WASHINGTON, April 24.—Although the United States has proposed a real reduction in naval armaments and expressed willingness to apply a new formula to the whole problem, there is to be no unkinging with the 5-5-3 ratio of naval strength laid down in the Washington treaties and no recession from the basic principle of American naval parity with Great Britain.

Administration officials hastened to emphasize these points today while the cables were singing with the burden of commendatory messages from abroad. Most of the messages came from England, where the first reaction to the American proposals appears to have been "most happy," as one official expressed it.

Commendation Expressed.

Mrs. Hannah Finnefrock Celebrates 102nd Birthday

International News Service.
OIL CITY, Pa., April 24.—Cards and letters are pouring in today from all sections of the country to Mrs. Hannah Finnefrock of Ten Mile Bottom, Venango county, who will quietly celebrate her 102nd birthday there tomorrow. There will be no celebration, for Mrs. Finnefrock has been confined to her bed during the last three or four weeks.

Born in Armstrong county April 25, 1827, Mrs. Finnefrock spent the greater part of her life on a farm near Williamsburg.

Mrs. Finnefrock was in a remarkably good state of health for one of her age until her present illness.

Precinct Survey Is Now Under Way

Report Of Commission To Be Made To Court By June 1

Preliminary work on the allocation of voting precincts in the city of New Castle has been started according to Attorney Roy Mercer, who with W. Leslie Wilson and Thomas E. Welde is serving upon the commission appointed for that purpose by the court.

The appointment, made by the court specified June 1 as the day upon which their recommendations were to be returned and according to Mr. Mercer the commission expects to be able to make the return on or before that date.

Much detail work is entailed in the survey being made but when it is completed the commission will have a comprehensive picture of the condition in the voting precincts to present to the court and the public.

At 11:43:55 a. m. Miss Smith, 26, been in the air twenty-four hours, 12 minutes 12 seconds.

Miss Smith left the ground at 11:43 a. m. yesterday. She carried 220 gallons of gasoline and eight and one-half gallons of oil besides a liberal supply of food and drink. She had formerly held the record as a single over thirteen hours, a mark set in the bitter cold weather last January with an open-cockpit Breda biplane. When Mrs. Thaden broke that mark and stayed up a few minutes more than 22 hours, Miss Smith would win back her honors.

At 12:13:53 p. m. Miss Smith had been in the air for 24 hours 12 minutes and 12 seconds.

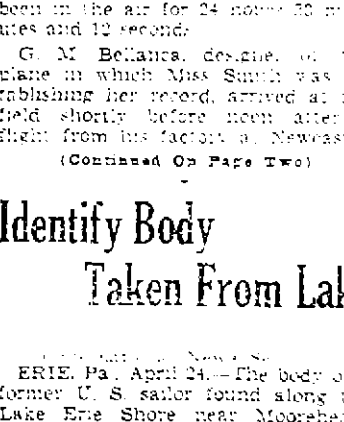

G. M. Bellanca, designer of the plane in which Miss Smith was establishing her record, arrived at the field shortly before noon after a flight from his factory at New Castle.

They're cleaning house at our place and the cat is quite a mess there. I find one cat or collar mark is another's guess. There's nothing in the dresser and there's nothing in the closet and the baby my shoes and my hat, behind the bathroom door. The parlor lamp is overturned and a wreath of shirts are tied hanging on the center table and on the rug. The fish dies. The telephone is hanging with a knot of mangeling and the corner of the seat is where we get our cokes and beans. The couch is just clear out of sight with shoes and shoes and pants, hats, coats and things looking out of their places. Not a chance. It's the usual spring house cleaning. New Pastor And Wife Are Given Reception

Reception tendered Rev. and Mrs. Floyd M. Childs, the former the new pastor of the Emmanuel Baptist church at the church last evening by the members of the congregation and the pastors of various churches of the city, was decidedly successful more than 250 people being in attendance.

The reception was inaugurated with a seven o'clock dinner which was served by a group of the ladies of the church. Members of the primary department were served in that department by Mrs. Thomas Lloyd.

Among the special guests other than the honor guests were Rev. and Mrs. Samuel Whilding, Rev. and Mrs. H. J. Buckingham, Rev. and Mrs. J. B. Porter, Rev. and Mrs. G. M. Landis, Rev. and Mrs. B. J. Watkins, Mr. and Mrs. John Thompson and Hon. Barton E. Richards.

Following the dinner which was enjoyed by all and which was served by the members of the classes of Mrs. John McNeill and Miss Anna Jenkins, an interesting program of music and addresses was carried out. The music was in charge of William Richards with Miss Anna Jenkins and Mrs. David Clement presiding at the piano as accompanist.

In the absence of David Rees the senior deacon, W. A. John, Brython

presided during the time of the program.

The program included the following: Duet, Robert and Linda Childs; song, Elvira Bludorn; solo, Mrs. William P. Vogan; solo, Mrs. R. T. Morris; duet, Rev. and Mrs. Floyd Childs; solo, Mrs. W. G. Parsons; addresses: The Hon. Barton E. Richards, Rev. Samuel Whilding, Rev. H. J. Buckingham, Rev. J. B. Porter, Rev. B. J. Watkins, Rev. G. M. Landis and Ben Jones a deacon of the church.

These speakers all extended a welcome to Rev. and Mrs. Childs and expressed the hope for a long and successful pastorate at the church. A letter was read from Rev. and Mrs. J. L. Perle expressing their regret at being unable to be present.

Mrs. G. M. Landis wife of the pastor of the First Baptist church, then presented Mrs. Childs with a basket of American Beauty Roses on behalf of the ladies of the Emmanuel Baptist church.

Both Rev. and Mrs. Floyd M. Childs responded in a feeling manner and expressed their appreciation of the wonderful reception tendered them.

The success of the affair was due in a great measure to the efforts of Mrs. John McNeill the chairlady of the affair and all those who assisted in the various committees.

WILLIAMS COLLEGE Editor thought OG's couldn't win!

But look what happened when a third of the student body compared the four leading cigarettes with names concealed

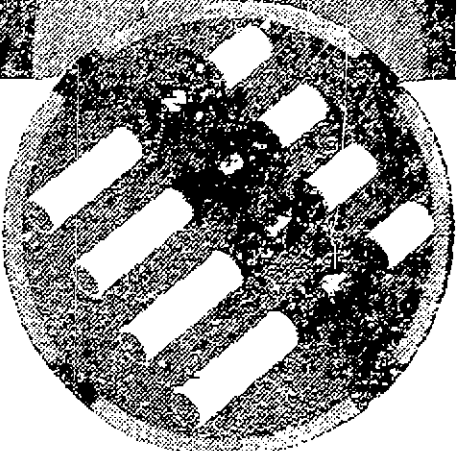

THE WILLIAMS RECORD, TUESDAY, MARCH 25, 1929

'OLD GOLD' CHALLENGES AND WINS IN CIGARETTE 'TEST'

Challenging the statement appearing in the columns of The Record of February 26 that Williams men have a distinct preference for cigarettes as proven by the fact that that brand outsells competitors in local shops, the Old Gold company last Friday afternoon conducted one of its famous "concealed name tests" at Williams. As a result, Williams has joined the growing list of colleges and universities which have given Old Gold a plurality in such a contest, for out of the 234 votes cast, the challenging brand received 66 first choices, while two other leading makes could do no more than tie for second place with 49 votes apiece, and a fourth prominent brand received 50 preferences.

To admit no unfairness into the test, each brand of cigarette was grouped by one of five possible numbers, stamped on the black band concealing the name, so that comparison of numbers among those taking the test, would have been difficult. The results of the voting, done entirely by number, were checked up by Seelye '29, and A. Clark '30, Business Manager and Assistant Business Manager of The Record.

As a result, the try-outs held last Friday

The four leading cigarette brands . . . "masked" to conceal their brand names.

Mr. Hoover on Crime.
No More Poverty.
Who Sold the Whisky?
Lo, the Poor Farmer.

By ARTHUR G. BRISBANE
(Copyright, 1929, King Features
Synd., Inc.)

Herbert Hoover tells newspaper editors that crime is our problem, and it is not chiefly a prohibition problem.

The President sees the country's foundations subsiding under crime's attack.

He says: "9,000 are murdered every year in the United States, little more than half as many arrested, less than one-sixth of the slayers convicted."

"At least 10 times as many robberies in proportion to population are committed in the United States as in Great Britain, and three times as many burglaries."

Prohibition has increased crime, says the President. "By the vast sums that are poured into the hands of criminal classes by patronage of illicit liquor by otherwise responsible citizens."

"But only 8 per cent of crimes come from the prohibition amendment."

How many crimes come from contempt for law and the Constitution, shown by the otherwise responsible citizens?

When the merchant and banker have their bootleggers, the highwayman feels that he has a right to his blackbag, the burglar that it is his right to own and operate a jummy.

The President, sincerely and courageously determined to enforce the prohibition law, will find it a task compounded with which controlling Mississippi floods would be child's play.

The Berliner Tageblatt says Herbert Hoover's "fundamental object is abolition of poverty. The benefits of modern technique should come to the people as a whole. Equal rights for all, and not merely for Wall Street and Rockefeller and Morgan."

You can't do Wall Street, Rockefeller Morgan, a greater favor than to abolish poverty. They don't make profits from poverty. Their profits come from the money that the average prosperous man spends. And the more he has, the more they get.

In New Jersey a "prominent engineer and clubman" is in jail, accused of driving while drunk and killing a pedestrian, whose leg was shattered. "The 'prominent engineer's' running head."

In New York a Negro accused of attacking women in the subway says, "I finished my work and a few drinks and went home." That's all he remembers.

What about the gentlemen who supplied whisky to these men? Have the authorities made any effort to identify and punish the whisky sellers? Not yet.

Frank Pellini, of Mansfield, O., owns a "soft drink parlor" but won't own it long.

A prohibition agent shot Pellini, who is dying, his wife and six children watching him.

The poet says Pellini sold whisky, but wouldn't let the agent take it out of the soft drink parlor. So the agent shot Pellini.

Prohibition is a complicated institution.

The "William and Mary" plan to subsidize exports of farm products is rejected by Mr. Hoover. The Senate plans nevertheless to try it.

The plan is to give the farmer export bounty, etc., a bonus of one half the American tariff on all the wheat or other farm products exported.

After consulting the Departments of Agriculture, Commerce and the Treasury, Mr. Hoover says the plan would enrich speculators and reduce wheat prices, since foreign markets would have to meet the competition of subsidized products.

Also, says the President, the plan would cost the country \$200,000,000 a year, cause much bankruptcy and it would not solve the farm problem.

Farmers will cease moaning when they realize that the bonus money will be paid, not direct to them, but to merchants exporting products.

It needs no poet come from the grave to tell farmers how little they would get of that bonus. When gamblers and the middle man would get it, the farmer in his taxes would have to pay part of it.

In California, a passenger and an Army plane colliding in mid-air killed six, should cause authorities to enforce definite rules for flying.

Three witnesses the crash describe the swift Army transport plane "maneuvering apparently with ease about the larger passenger plane, doing stunts."

The pilot of the Army plane, dead, cannot tell his story.

But, the pilot of the passenger plane, (Continued On Page Five)

The world is getting safer anyhow, says Ford, but the new car on the market, there won't be half as many people laugh themselves to death as Ford jokes.

Hints and Dints

Sun sets tonight 6:47. Sun rises tomorrow 5:09.

When you are dead your will tells what you are worth to your relatives. The newspapers estimate your value to your friends.

A law passed by the Pennsylvania legislature adds one dollar a day to the fine for anyone who is drunk and drives a motor car. Even at that some don't care enough to pay to cover their hotel bill. Not so bad, anyhow.

The executive has a hard life. Every little could be kept in shape.

A new style for women wearing neckties has them hanging down the back instead of the way they are worn now. Crooks and their right off them, while they are looking at them and we are anxious to see how long they will be worn down the back. Oh, when de dole dole wham.

"Father, what do you call a man who drives a truck?"

"Ask your little sister to leave the room, and I'll tell you. I had to dodge three of the motorday."

When some people hear talk of going on a diet they think it is some color being talked about.

Kind heaven delivers us from the boze who works and manipulates things for his own personal gain or ambition to the detriment of all his fellow humans.

A lady living in San Francisco wrote us at letter and she said she wondered what we were thinking about when we wrote "Wham de dole dole wham!" Oh how de dole dole wham!

"Have you heard a robin this spring?"

"No, but there are a dozen con-founded canary birds somewhere in my new car!"

Prohibition was not discussed during the recent session of the Pennsylvania legislature. We didn't wonder at that after seeing a day there during the session.

Mayor Kilus of Pittsburgh has given orders to the police in that city to be hospitable and courteous to strangers who visit that city. Being bawled out by a flock of traffic cops in a city does a lot of harm. A stranger when he makes a mistake should be told that it will be overlooked and he should be asked if any assistance should be given him to avoid such mistakes. It pays.

MEMORY
Memory is the power to revive again in our minds those ideas which, after imprinting, have disappeared, or have been laid aside out of sight.

"Get busy" is poor English, but it's good advice.

While it may be that over fifty thousand women in Chicago have gone on record as "strong women" to cut their hair, it is also true that so far as we have been able to learn so far no one has been kicking about men barbers doing that work in this city. We have an idea that women barbers would be just about as unpopular with men in Chicago.

Often a boy's interest in his girl friend ends when he has run out of big stories to tell about himself.

The most interesting thing in the world is tomorrow.

Dictionaries are supposed to be simple and direct, but you never saw one that called a spade a spade.

That Boston preacher who refused to marry a 73-year-old man to a 53-year-old woman may be right when he said he refused to perform the

ceremony because the old bird was old enough to have better shade. There does not seem to be any age limit on the desire to get married.

No herb is free of pests. Mr. Hoover.

A lady who has been sick for some time says her husband has been awfully nice to her. She is wondering if he will still continue to be so now that she is getting well. Maybe she has been pretty nice also. You may be able to guess the result.

Most children are trained in the way they should go when they are young, and then they break training.

And the 13th used to be a hole, not an amendment.

SINGS OF SPRING
The juncos peep from earth's ends. The birds hop on the grass. But sweetest sign of all is this "Two Cents Advance on Gas."

A university professor declares that modern invention, the automobile, the airplane and the radio have changed the ways of living and that the home is a neglected place. One does not need to be a college professor to know that.

The Pennsylvania legislature passed a law and it was signed by the governor providing a penalty of life imprisonment for those found guilty of "four felonies." The "four felonies" are: violators however, will not be sentenced under this law. Some of the violators will be in jail all the time anyhow.

"No, Mary, You can't have the battery out of the car to operate your radio. How can I drive a car with the battery?"

"Why, John, I heard you say last week that you drove home from Jonesboro with the engine missing!"

Just when wise men have convinced us that last night, it breaks out again some where.

One of the things that puzzles some men about that son of theirs is how he manages to leave just enough gas in the car to get it home at night.

A great inventor said: "Only the impossible is worth doing."

In these days of profiteering it seems that whatever goes up stays up.

Until we are built like angels. With hammer and chisel and pen, we will fight for ourselves and a woman.

For ever and ever. Amen.

Self importance is only a "state of mind" with most people. We know a man who, after an absence of four years, went back to visit his old home town. The first four people he met didn't remember him, and the next three didn't know he had been away.

THE DEADLY BED
Not long since we were harassed by the perils of the bath tub. More people were reported to have lost their lives in bath tubs than on step-ladders. The bums rivaled the car and airplane for victims. Life and limb were being sacrificed at a fearful rate by this innocent bathing institution, making it more deadly for the home than divorce.

Come now the humble bed and lays claim to more casualties than the innocent bath tub. Getting in and out of bed is our greatest danger.

The deadly bed claimed 73 of the policyholders of the Travelers' Insurance company of Hartford in 1927 and the household bath tub got but 64.

The bath tub built of sleek porcelain and greased by soap could not be so deadly as many into the tomb as did the modest, retiring bed in the back room. A large per cent of the population, even in this aesthetic age, is not guilty of over-bathing. Many resort to it but once a week.

It's a poor bomber that can't hit a Mexican hat.

The sensational holdup of the Little Gem restaurant today at noon, was one of the slickest and most daring robberies committed here in the last few hours.

Subway Fare Decision Pleases Champions Of States' Rights

Failure Of New York Transit Company's Appeal To Supreme Court Viewed Check To Of Federal Tribunals

Champions of states' rights are immensely pleased by the decision of the supreme court refusing federal intervention in the New York City transit fare controversy. The issue was taken to the United States courts by the Interborough Transit company on the ground that it was unconstitutional to require the transit fare to be set by the city of New York.

"Many of the more important public-service issues have been taken over to the federal courts by the companies," says the ROCHESTER TIMES-UNION, "especially on the ground that the railroads are engaged in interstate commerce."

While the United States supreme court has never ruled that the placement of such cases in the federal courts is the sole consideration in valuation of the federal courts, especially in the lower courts, has been to make this a predominant factor. State court decisions are likely to be in close touch with the policies of state legislatures and state courts, and to that extent make the work of the supreme court less desirable. It is true that the supreme court will be had to the federal courts, but the state court findings are likely to carry weight, even when such an appeal is taken.

The CLEVELAND PLAIN DEALER holds that "the decision of the supreme court does not turn on the question of the constitutionality of the transit fare, but on the question of the right to set the fare." It is true that the fare is set by the city of New York, but the fare is set by the city of New York, and the fare is set by the city of New York.

The immediate question involved, namely, whether the interstate commerce should be permitted to advance its passenger tariff by two cents on the face of a long-existing contract specifying a maximum rate of five cents.

The decision is a masterpiece of exclusive concern. The supreme court has not said that the transit fare is set by the city of New York, but it has said that the transit fare is set by the city of New York.

The World AND THE Mud Puddles

ANOTHER BI-PRODUCT.

In the packing industry where products are small it is essential that products be found for every product. Hence, producers have developed many by-products which are utilized in the medical profession.

One of the most recent is the discovery by a group of investigators in a prominent eastern medical school that liver or kidney in the diet will cure pernicious anemia. This discovery has been as important as the discovery of insulin, which is made from the pancreas of meat animals and is used for the treatment of diabetes.

From the standpoint of food, a valuable addition has been gelatin, not merely as the basis of delicious dessert, but dentists recognize it as a high protein food which is valuable in the diet and aids digestion of other foods. It may be surprising to many that more gelatin is used in the manufacture of ice cream than for any other purpose.

More than 90 per cent of the gelatin made today contains gelatin.

AN IMPORTANT DEVELOPMENT. (The) FORT WORTH RECORD-TELEGRAM, which contends that it should serve as a predicate for all future regulations between public-utility concerns, cities and states. In its final analysis," continues the paper, "it should concentrate on the rights of cities to make and maintain their own contracts and state that the regulatory powers over them exist in the city limits. The state supreme court should be the highest possible appeal."

"To the layman the United States supreme court has simply declared that the city has the legal right to enter into contracts with public utilities."

Just Folks By EDGAR A. GUEST

Explaining to Her. Oh Mistress Nellie don't you see This life of mine has need of thee? Though I can pay my bill for board And every comfort here afford, How desolate my days would be Unless your smiles were mine to see!

'Tis not the little tasks you do That makes my heart depend on you. The very plain that I could live A man to hang up my attire; To sew the lining in my coat And swing a muffer round my throat.

And he could change, I now assert: The buttons in my vesting sack, And learn, I'll venture should he try To knot for me a bat-wing tie, But still unhappy I should be Were you not here to wait on me.

You see it's not the things you do For me which make me long for you. It is your voice I want to hear, Your gentle ways I need my dear, If happy here can I be, This you must be my dear for me.

W. P. Book Dies In Hollywood, Cal.

Pioneer New Castle Resident Passes Away Early This Morning

Dr. W. P. Book, 62, of the city of New Castle, died at his home in Hollywood, Cal., at 10:30 a. m. today. He was a pioneer resident of New Castle, having lived here for many years. He was a member of the First Baptist church of New Castle, and during his lifetime Dr. Book took an active interest in the church, giving it many substantial contributions.

Dr. Book married a sister of the late Dr. J. D. Smith, famous evangelist and composer, who survives with one daughter, Mrs. Theresa M. Bower, of this city. He also leaves a sister, Anna.

No announcement was received relative to the funeral arrangements.

Dr. Book was born in 1858, at the old New Castle, Pa. He attended the University of Washington, and the University of California, where he received his M. D. degree in 1884.

After the war, Dr. Book went to California, where he remained in the city of Los Angeles. He was one of the first to explore the Hollywood district, where he set down a number of buildings.

His father was one of the founders of the city of New Castle.

Merchants Decide Time Change Today

Better Business Bureau Meeting This Afternoon To Decide Time Changes

Members of the Better Business Bureau of the New Castle Chamber of Commerce are meeting this afternoon in the Chamber of Commerce headquarters in the Green building for the purpose of deciding whether or not the member houses of the organization will adopt daylight savings time when it goes into effect here the first of the coming week.

Financial Shenkin, president of the bureau, is in charge of the meeting. A discussion was announced at the call of the meeting and it is more than likely that the vote will be taken at this meeting as to whether or not the New Castle stores will adopt daylight calendars for the summer months.

Members of the bureau are: J. D. Smith, president; J. D. Smith, secretary; J. D. Smith, treasurer; J. D. Smith, members.

CAPITAL LAWYERS IN CONTROVERSY ON CONSTITUTION

(Continued From Page One)

destroying the rights, but gave the federal government no power to enforce them. Any state, he said, could outlaw free speech, and religious freedom or terminate free assemblies if its own constitution failed to guarantee these rights.

Opinion Divided
An International News Service poll of the Senate's most noted constitutional lawyers revealed a diversity of opinion among them. Senators Thomas J. Walsh (D. of Montana) and Walter F. George (D. of Georgia) upheld King's views. Senators William E. Borah (R. of Idaho), Sam G. Brantley (D. of New Mexico) and Guy T. Goff (R. of West Virginia) disagreed with him. Their discussion of the legal point raised by King indicated there are still a few constitutional questions yet to be decided by the supreme court.

Senator King, a former supreme court justice in Utah, in making his point said: "The nation has a wrong conception of the constitution. It carries no guarantees of free speech or religious freedom. It merely forbids Congress from taking away these rights lodged in the state or the people. Most state guarantees these rights in their state constitutions. Where such guarantees are not lodged in the state constitutions, the rights do not exist."

Experts Differ
Senator Walsh, one of the nation's greatest constitutional lawyers, said: "Senator King is right. The first amendment to the constitution simply prohibits Congress from enacting any law prohibiting free speech or religious liberty. Primarily the right of free speech, etc., rests upon provisions in the constitutions of the states. But if a state passed a statute, the result of which is to suppress free speech, a serious question would be raised as to whether it would not be void as violating the 14th amendment to the federal constitution, which declares that no state shall deny to any person the right to life, liberty or property without due process of law."

Senator George, a former supreme court justice in Georgia, said: "The federal constitution merely restrains Congress from passing any law that would infringe the liberty of speech or religious worship. It does not create any guarantees or rights. It merely puts shackles on Congress. I would not say any state, whose own constitution was silent, could commit any outrage against the liberties of the citizens. In such event I believe the federal government could protect the citizens under the life, liberty and property clause of the constitution."

On the other side Senator Borah, also recognized as a great constitutional lawyer, observed: "I believe the constitution amounts to a guarantee of freedom of speech, peaceful assembly and religious liberty. If Congress is restrained from passing any law to forbid these liberties, the people are free to exercise them as rights."

Senator Goff, a former assistant attorney general, added: "The federal constitution in effect guarantees freedom of speech and religious worship. In event any state should prohibit them, the Congress can act under section four, which says the United States shall guarantee to every state in the Union a republican form of government. In order to justify this action it would be necessary merely to show that the state was denying free speech or freedom of religious worship, which are fundamental in a republican form of government."

Elwell To Take Leading Roll In Minstrel Show

Local Theatrical Man Will Be One Of Ends In Benefit Minstrel

Harry Elwell, who has been touring the country with a vaudeville troupe, returned home last evening, having completed his tour at Lima, O. Mr. Elwell immediately signed up to take one of the leading end roles in the benefit minstrel production to be staged for the benefit of the new Jameson Memorial hospital and will be paired with Joe Love, with whom he has appeared in other local productions.

The money which is raised through the minstrel show and revue, which is being sponsored by prominent local business men, will be turned over to its entirety to the hospital board, and will be used principally to furnish one of the wards at the hospital, it was announced today.

City Treasurer Louis McClung has been named treasurer of the production and will handle all funds. The entire receipts of the production will be given to the hospital board for the purpose stated above.

Rehearsals are going along nicely for the show and the music for the solos and quartets of the minstrel are now being selected. Rehearsals are being held in the dancing auditorium.

In addition to the minstrel show, several high class acts have been chosen for the revue which will follow.

Tickets are now on sale in many downtown stores and have also been placed with a number of local industries.

RED CROSS TO CONDUCT EXAM

Want Applicants To Take
Senior Life Saving Test;
Herbert To Be In
Charge

The Lawrence County American Red Cross still is in need of names of applicants for the Red Cross senior life saving examination which Jack Herbert, chapter life saving chairman, may conduct sometime in the near future.

Those who desire to become Red Cross senior life savers can do so by taking advantage of the opportunity now being afforded. Names should be sent to Red Cross headquarters.

No cost is made in connection with the examination. Mr. Herbert was made an official Red Cross examiner during the recent visit of William Kleb, life saving field director of the organization.

To Asphalt Drive At Pennsy Depot

Pouring of asphalt on the driveway into the west side depot of the Pennsylvania railroad will probably commence tomorrow. Workmen are busy engaged today in placing the ground in shape for the pouring.

The gravel roadway will be covered with asphalt and further improvements made all around. The center of the drive will be reserved for grass and flowers.

Band And Chorus In Program At
Senior High Last
Night

Because the arrangements had been made hurriedly the crowd attending the concert of the New Castle Senior High school band orchestra and Glee club in the Senior High school auditorium on Tuesday night was not as large as it should have been.

Each organization presented the numbers it will use in the Northwestern elimination contest to be held in Erie on April 26 and each number was vigorously applauded. The receipts of the concert will be added to the transportation fund which will pay for the special train to be used on April 25.

The band and orchestra numbers were directed by John E. Paton and the Boys Glee club, the Girls Glee club and the mixed chorus numbers by Miss Isabelle Zehner.

New Castle Girl To Be Swimming Instructor

Will Be Located At Seacrest, N. J. During Summer Months
Others Taking Life Saving Tests—News Of Westminster

NEW CASTLE, Pa., April 24.—Miss Dorothy Stankard, New Castle, assistant to Jack Hulme in the handling of swimmers at Westminster, will again be a swimming instructor at Seacrest, N. J., this summer.

Miss Stankard, after passing the summer's test given by the American Red Cross, won a position as swimming instructor at Seacrest last year. Her responsibility is a mark of her competence.

Six men and five girl students at Westminster will endeavor to pass the American Red Cross life saving tests under the watchful eye of Jack Hulme before college closes. These students are: Nelson Age, New Wilmington; Samuel Colman, Philadelphia; Eliot Solari, Webster Groves, Mo.; William Beall, New Castle; Lauren Brown, Utica; Ernest Durrant, New York City; Thomas Uber, New Castle; Miss Mary Shannon, New Castle; Miss Florence Groth, Cleveland, O.; Miss Jean Reed, Bellevue; Miss Eleanor Wilson, New Wilmington; and Miss Dorothy Brown, Bellevue.

Miss Isabel McConagha, daughter of Mrs. M. C. McConagha of the Westminster faculty and a graduate of Westminster who is now registered as a special student in biology, has been admitted to the Cornell University Medical School with the September class. Miss McConagha received her M. A. degree from Columbia University last year. She has been studying biology at Westminster this year. She is one of four girls admitted to the Cornell Medical School class, and is one of the 750 applicants accepted.

Raymond Marshall, newly appointed business manager of the Westminster Record from Jamestown, Pa., will represent the college paper at the annual spring convention of the Intercollegiate Newspaper Association of the Middle Atlantic States, to be held at Muhlenberg and Cedar Creek Colleges at Allentown, Friday and Saturday, May 3 and 4. The Holland is a member of district four of the I. N. A., which includes the campus publications of Allegheny, Washington and Jefferson, and Thiel.

After considerable work and a pile of logs removed one layer at a time until the end of the girder was resting on the ground and the other on the trailer body.

The chains were then hooked onto the other end of the girder and using a frame as a support, and a donkey engine on the Croton avenue side of the river doing the pulling, the girder was lifted from the trailer and left in this position.

To get the huge piece of steel into place will require a large crew of men and the crowd of spectators that saw the truck was then withdrawn and the girder lowered to the pile of logs. Again the girder was lifted and the

To Stop Writing Of Names Upon School Property

At a recent meeting of the student representatives of the senior high school, action was taken on the beautification of the high school inside as well as the outside and the first move has begun.

The writing on school property to be stopped is the first move the representatives have made.

Students entering and leaving the school have a habit of writing their names on different parts of the school property such as the desks, blackboards and walls of the school. Tuesday morning the different student representatives visited different rooms and wrote down the names of the students whose names they found engraved on the desks or other school property.

These students will have to erase their names and if the names are found a second time the students will be fined and will have to serve time in the detention room.

Think how much money Annulus could have made writing dog stories.

Indigestion Immediate Relief!

What most people call indigestion is really excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

Value Of Dairy Herds Increases To \$94,905,000

Mounts \$12,000,000 In Year With Little Numerical Change

12,840 CATTLE IN LAWRENCE COUNTY

HARRISBURG, April 24.—The value of dairy cattle in Pennsylvania increased about \$12,000,000 in the last year with the number of animals remaining approximately the same, according to the Bureau of Statistics, State Department of Agriculture.

The estimated number of milk cows and heifers two years old and over in the state on January 1, this year, was 128,400. These were valued at \$94,905,000, which shows the commonwealth 15th place in value of dairy cattle being outranked by Wisconsin, New York, Minnesota, and Iowa.

This upward trend in value is said to reflect improvement in the quality of dairy cows, the principal reason for this probably being better breeding and the elimination of low producers.

In certain sections of the state, the dairy industry has been stimulated by the extension of milk routes into rural districts not previously reached, records in the bureau indicate.

Lawrence county milk cows and heifers were estimated to total 12,840 and are valued at \$1,325,720. Mercer county has 12,550 head with a total valuation of \$1,557,000, Cameron county the next, with 12,000 head and a total value of \$1,300,000.

Penn-Ohio Employees To Dance At Idora

Plans Have Been Made By Coulthard And Shaner

The annual spring dance party for Penn-Ohio System employees will be held Thursday evening at the dance pavilion, Idora Park, Youngstown. This social event continues an unbroken custom of fifteen years and incidentally opens the "May Party" season at Idora.

Arrangements for the dance have been made by C. C. Coulthard, president, and C. L. Shaner, secretary, of the Penn-Ohio Club under whose auspices the dance is held.

Dance music will be furnished by the Penn-Ohio Orchestra, composed of employees of the power and transportation system, under the direction of Frank B. Woods. Dancing will be from 8:30 till 11:30 p. m. with intermission for spread entertainment features. These will include classical dances by Miss Rosalie Lucard.

Trick Knife Fails Victim Near Death

NEW YORK, April 24.—It was a dull party and Clifford Rathkopf, twenty, of No. 152 Lexington Avenue, the host, decided something must be done to liven things up. Rathkopf has a simple idea of amusement. He seized a trick knife and pretended to stab himself in the chest.

The trick is that when a lever is pressed, the blade slides back into the handle. Early yesterday, however, when young Rathkopf was trying to be the life of the party, the mechanism jammed and the blade did not slide. He fell to the floor, a stab wound in the chest. One of the guests, William G. Plante, of No. 27 East 11th Street, took the host in his car to Bellevue where his condition was said to be serious.

ENDED HEALTH TROUBLES; NOW FEELING FINE

Grateful Lady Pays Glowing Tribute To New Medicine, Ten Herbs.

Every day more local men and women give high praise to Ten Herbs. Many state there is no other medicine like this famous compound for relieving stomach, liver, kidney and bowel disorders, rheumatism, neuritis,

MRS. ANNA TAYLOR

nervousness, and general debility. If you have any such health troubles, do not fail to have an immediate interview with the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily demonstrating the new preparation, which consists of ten wonderful herbal ingredients.

"Ten Herbs relieved my ailments and made me feel fine," was the recent statement of Mrs. Anna Taylor, 233 East Jefferson street, Butler, Pa., to the Ten Herbs Man. "I was troubled with indigestion, gas and bloating. I had no appetite and was losing weight right along. A little food gave me a full-up feeling. I had heartburn, and my tongue was coated. I kept losing strength and was getting in a badly run-down condition. My nerves kept me from sleeping properly and I felt very tired upon arising in the morning. I was easily irritated—the least thing got on my nerves. Headaches came on me, and I could not walk any distance without feeling tired out. My liver gave me trouble, and my complexion was sallow. Constipation bothered me. There were pains around my eyes, which would water."

"My mother had been greatly benefited by Ten Herbs, and she suggested that I try your medicine, which I did. I have a good appetite now, and am free of indigestion, gas and bloating. I can eat anything without it causing distress. My nerves are in fine condition, and I sleep soundly all through the night. My liver is working properly, and I do not have any more trouble with constipation. I am rid of headaches and dizzy spells, and my complexion has become clear. The pains are gone from around my eyes. I have regained the weight I lost, and am feeling fine. Ten Herbs has helped me so much that it deserves my highest praise."

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily meeting the public and explaining the merits of this medicine.

Finger Prints May Identify Lake Erie Victim

ERIE, Pa., April 24.—In an effort to establish the identity of the body found along the lake shore Sunday afternoon, finger prints were taken and were forwarded to the navy department by Commander D. S. Hanley.

That the man was an old time sailor was evidenced by the markings on his arms, which indicated that he had served on the airplane carrier Langley, as well as on two cruises.

After all means to identify him had failed, Commander Hanley requested that his finger prints be taken by Capt. Christoph, in charge of the city identification bureau. The body was in good state of preservation but the fingers were covered with a coating, that made it difficult to make good impressions.

Four impressions were perfect, according to Captain Christoph, while the remaining six impressions were well developed. Captain Christoph said that there should be little difficulty in identifying the victim as the prints were clear enough to permit authorities to make an absolute check.

Authorities at first believed that the body was that of a flyer, whose plane was seen going into the lake in flames about midnight on April 13, but today they are inclined to follow the theory that the man was a run-runner, who probably fell overboard from a rum-runner craft headed for the American side.

City and county authorities last night were informed that a craft laden with liquor had left the Canadian shore last Thursday night, and that it had never been reported reaching this side. In view of that information authorities today began tracing down rum-running ships that had been known to leave this port for the Canadian shore.

From one banker to another—

"The car to buy is CHRYSLER"

A certain prominent banker heard that another banker, a good friend of his, was considering the purchase of a new motor car.

Impelled by a friendly desire to be helpful, the first banker took the time and trouble to write the letter from which we quote:

"I now have my second Chrysler," the letter reads. "As you know I have been a consistent buyer of good automobiles for my own use, which names of both bankers on request."

is strictly that of transportation; and with all due respect to the many excellent cars I have owned, I must say that the Chrysler '72' and '75' have both shown more ability than any of the other cars I have ever owned. And, too, they have shown ability of more than one kind.

"The Chrysler has roadability. In traffic congestion or on the open road, it is both spry and safe.

"It has durability. Out of four cents per mile that I set aside in a special fund, to take care of tires, repairs, replacements, complete coverage insurance, taxes of all kinds, license, and depreciation, everything in fact excepting gas and oil, I found when I exchanged my '72' for a '75' that, after paying the difference between my car and the new one, I had \$115 left of this special fund.

"It has dependability. There was never a time when I was delayed a single minute (and you know I travel on a rigid schedule), in keeping my appointments or making my destination as per program.

"And last, but by no means least, especially when we are buying for our good wives, it has respectability. And you and I both know that this is important. I think my daughter expressed very cleverly the reaction of the feminine mind when she said: 'Dad, your Chrysler is such a very respectable car. One feels toward it very much the same as one does about cultured or refined people; just naturally liking to be seen in company with them.'

"One would almost think that I was writing an advertisement or a testimonial, but this message is neither. It is simply a word of appreciation passed on from one friend to another, of a splendid piece of high-class merchandise."

There could be no better evidence of the supreme merit and value that enable Chrysler cars to make and hold their friends.

POST-MORTEM SHOWS PRESENCE OF DRUG

Providence, R. I.—A trial instituted by Mr. Edward H. Silcox, 68 Schenck street, resulted in a conviction, after a "post-mortem" revealed the presence of a "drug" in the beverage constantly used by the plaintiff. The sentence was a charge of diet. Mr. Silcox, himself, gives a detailed report of the proceedings.

"A trial several years ago converted me to the use of Postum and uttered in the post-mortem of injurious beverages."

"In the present day, the food chemist places an important man. Our enjoyment of life and health depends on how we utilize his offerings. Thousands of thoughtful people are turning to a well-balanced diet, adding many years to their span of life. Neurologists recognize the harmful effects upon nerves of caffeine and prescribe a healthful substitute in Postum."

That last long mile

"As a regular user and booster of Postum, I have long since proven its benefits. How delicious Postum banishes fatigue and helps one through the last, long mile of the day's work! I have also experienced relief from nervous tensions with a cup at bedtime, afterwards enjoying a sound, restful sleep, and awakening in the morning, fresh for a new day. And what is more welcome than piping hot Postum, instantly prepared, coming in from a brick

side in Fall or winter? What is more appetizing than its aroma at the break of day in the auto camp, or more refreshing than iced Postum poured from the thermos bottle during the heat of a midsummer's day?"

Pleasure—Profit—Health?

These three words about sum up the total of the good things of life. And there is assurance of all of them in the diet change which Mr. Silcox recommends—in the change from caffeine to Postum.

Schoolgirl learns simple health measure

WITH all the talk there is nowadays about the independence of the sub-deb generation, your reporter got a great kick out of hearing a grandmother describe how her granddaughter was following a good old tried and true method of improving her general health.

"My granddaughter, Margaret," says Mrs. Zell of 623 Catherine Street, Philadelphia, "read about Nujol, was interested in it, so sent for a sample." It seems she has been taking a tablespoon of Nujol once a day since and expects to continue this treatment. Already she has found an improvement in her general health, her system functioning normally where other remedies had failed.

That's one of the best things about Nujol. It is just as harmless for young girls, or babies even, as it is for adults. For Nujol contains no medicines or drugs. It can't upset

you because it works so easily and regularly, in a normal fashion.

Nujol was perfected by the Nujol Laboratories, 2 Park Avenue, New York City. It can be bought anywhere for about the price of a ticket in a good movie. Get a bottle of Nujol today and try it, won't you? In sealed packages.

DEE RECH DEFEATS FLECKENSTEIN IN Y. W. TENNIS MATCH

Tournament. Contestants were Miss Marie Fleckenstein and Miss Dee Rech. Scores in the two sets played, 6-2 and 6-3 in favor of Miss Rech. This evening there will be a match then, that our much-married Hollywood heroes at some time in their careers have portrayed Solomon?

THE STORM—and AFTER

A beautiful April day. Spring is in the air. Suddenly—clouds roll up. Gusts of wind stir the trees. A light drizzle starts.

As night comes on, the temperature drops. The drizzle becomes a heavy downpour. The spring day turns to a blizzard, and the rain to sleet.

The trees become many-fingered ghosts of icy whiteness. Telephone poles become livid shafts pointing up into the inky blackness.

As the hours pass, shimmering streaks of silver appear between the poles. The rain and sleet are cutting the wires!

With their heavy load of ice, the poles and coated wires sway in the tempest.

Suddenly—crash! The line goes down. Over a wide area, other lines fall. The works of man are as naught against nature's fury.

Before the storm has reached its climax, the guardians of the wires are calling for help. Near and far,

from other states, from nearby towns, the call is heard. Trucks are loaded and manned with crews. North, east, south, west—they head for the storm-stricken area.

They arrive. The fight is on—to undo the wrath of the storm king. They unscramble the tangled wires—a hundred miles each hour.

New wires, new cables, are uncoiled along the highways, on fences, on posts—

The Service Must Be Restored

In a matter of hours every telephone is back in service. Then the calm. Months of steady, continuous construction. New poles are set. Permanent cables and wire are placed.

In time of stress, of storm, of catastrophe, the Bell System knows no boundaries. Bell workers know no hours. The Bell Companies spare no expense—

The obligation to render a continuous service has its roots deep in the Bell organization.

Co-eds Will Enjoy Spring "Hop", Sans Male Partners

(Special To The News)

NEW WILMINGTON, Pa., April 24.—Westminster college co-eds will hold the annual spring "hop" in the college gymnasium tonight at 7:30. The "dance", sans male partners, is sponsored by the Y. W. C. A. of the college for all girl students. One-half of co-eds dress in clothes borrowed from fraternity men and freshmen and act as "escorts" for the other girls.

The "dance" will be enlivened by

a student orchestra composed of girls directed by Miss Martha Stevenson, Hubbard, O. Prizes of various kinds will be given the best "couples" in the dance, while special prizes will be given the winners of the aesthetic dances.

Assisting the Y. W. C. A. cabinet in arranging the program is the freshman commission. Refreshments will be served at decorated booths on the floor. Decorations for the affair will be put up this afternoon by the freshmen members of the cabinet.

NEW BEER TAX BRINGS FIGHT ON GERMAN BUDGET

Must Raise New Taxes To Meet Deficit In Reparations Payments

(International News Service)

BERLIN, April 24.—The German ship of state is swimming on beer.

Germany's political battles center around the budget, which must raise a large part of the reparations payments. The budget for 1929-30 shows a deficit of 379,000,000 marks which must be covered by new taxes.

Finance Minister Hilferding proposes to cover half this deficit by raising the beer tax 3 1/2 pfennigs, which is not quite a cent, per liter, making the total tax approximately two and one-half cents per liter.

Big Beer Consumption
In 1924 Germany drank 33 million hectoliters of beer. The consumption for the past year is put at 56 million hectoliters.

If the increase in the beer tax goes through, it would increase the yield of this tax by 185,000,000 marks to a total of 555,000,000 marks. This increase would cover half the whole deficit, and the total beer tax would pay four-fifths of the cost of the German army.

Storm of Protest
But the proposal to raise the beer tax has precipitated a storm of protest.

The most violent opponent of the proposal is Bavaria, which feels herself aggrieved of many things and bitterly complains of oppression by the Berlin governments—both national and Prussian. She is for state rights and blames Berlin for the decline of Munich. At the same time Bavaria is the home of beer and its heaviest consumer. Bavaria announces she won't stand for the tax, come what may.

Plan Special For Peoples' Mission

The People's Mission, 703 Sampson street, is planning for a special occasion on Sunday, May 5. On that day the Gospel Harmony Four of Erie will sing. With the Harmony Four will be Rev. Archie Gibson of that city. The day will be spent in music, praise and message.

Steel Operations Continue At Peak

Gain Is Reported In Unfilled Orders In March

(International News Service)

PITTSBURGH, April 24.—The advance of \$36 a ton on billets, slabs and sheet bars announced by leading interests last week has become normal, the Iron Age will say tomorrow in its weekly summary of the iron and steel trade. It also will say that the steel industry operations are continuing at a peak rate, being restricted only by the strain on equipment and the shortage of semi-finished material.

Any slackening in the present pace of steel mills is likely to be gradual, as heavy operating schedules are virtually assured well into June. In Chicago the ingot output has declined to 98 per cent of capacity because of wear and tear of operations which for some units have been five to 10 per cent above practical rating.

Pittsburgh mills have rejected orders of \$37 for sheet bars for immediate shipment, the summary will say. In the face of the dearth of raw steel 25,000 tons of sheet bars have been sold for shipment to Japan. This apparent incongruity is probably explained by the fact that a leading American producer maintains a regular allotment of steel for export, the Iron Age will state.

A gain of 85,000 tons in unfilled orders in March, reported by independent sheet mills, was in keeping with the expectations of the trade. The increase in February was 50,000 tons. While mill backlogs are no longer increasing, specifications at second quarter prices are beginning to be received as shipments against previous contracts are being completed.

Smith Wins In Case Brought By Garver

In the case of the Guarantee Mortgage Company use of W. A. Garver, against C. Ed. Smith Jr., which was tried before Judge Hildebrand, the jury returned a verdict in favor of the defendant, C. Ed. Smith Jr., for \$750. The case was one growing out of the failure of the Banner Heating Company of Youngstown, in which both parties to the suit were interested. Garver was claiming about \$4,000 but Smith had a counter claim amounting to more than that claimed by the plaintiff.

The Way OF THE World

By GROVE PATTERSON

GOOD WRITING

There is more information than a newspaper can contain, and a man who has the things, (1) the ability to write, (2) the reporter's art of knowing what are the most interesting things about a man and the events in which he figures. One of the best biographies of the last few decades—one of the best ever—written by the master of this column, "Meet General Grant," by W. E. Woodward. Woodward gives an intimate personal picture of Grant from childhood to death. Along with it he throws a clear light, without prejudice, on the major events of the Civil war. When Grant got a little drunk, Woodward tells about it; when he lost his job in the regular army we hear the inside "low-down" on that; we learn that Jesse Grant, 19-year-old son of the general, threatened to walk out on Queen Victoria because he didn't like the way he was treated in the palace. And we find out about the pigeon feet and one-things-another General Grant had at the Chinese dinner. If you want great entertainment along with apparently sound information read "Meet General Grant."

ANOTHER BOOK

Spokane of books, and one should speak frequently of books, if you think you should revise your idea of God and you want a suggestion, read "Living in the Twentieth Century," Part of it is a little heavy, and there are a dizzy lot of facts and figures, but it is packed with ideas. It is a review of the processes of civilization, showing "how we get this way."

THE EDUCATED PERSON

Nothing more interesting than the subject of education. Dr. Frank Shuter, famous Ohio educator, says the marks of an educated person are four: a continued hunger and thirst for knowledge, a passionate obedience to law, hospitality to change or an attitude of open mindedness, and a search for God through serving others.

It will be noted that these characteristics are within reach of those who do not go to college and who have never been there.

SAVING YES

It has been the custom of rule book writers since the beginning to condemn men for not being able to say "No." A man is supposed to be on the way to success when he has the courage to say no. It is a great virtue held up to young executives. But it would still be a wilderness of a world if men had learned only to say no and kept it up. Human progress demands men who can say "Yes," who can take a chance, who can over-reach themselves, more than it needs the dry, cold, crisp fellows who pride themselves on saying "No."

**Your Broadway

NEW YORK, April 24.—This Town of Ours: Ruby Keeler will not star in Ziegfeld's "Show Girl," the singing fool objecting. . . . The Dorothy Knapp suit for 250 G's for being fired against E. Carroll is not kosher, the pair arm-in-arming it as we say. Lady rates 3 grand per wk from the Guggenheim group. . . . Dorothy Smart, "the world's most beautiful model" before she wedded E. L. Bell, anticipates a blessed event. . . . It's a lass at the Rudyard Kipling Winchells.

Dr. A. H. Giannini was the banker who backed Fox in the Loew merger, fifty million in a trio of cash payments. . . . A new tome exposing the cinema censors is being prepared to startle the trade. . . . The Guman Club closing was the culmination of a long and personal feud with the ousted and irritated La Guman plotting to reveal the "torrid" inside stuff in print. . . . By the way, whatever became of the Mae West—Pleasure Man? indictment, anyhow?

Mr. Whelan may shove the force for a banking institution after all. The program lasses at the Lambs' Gambol who will peddle the things in the snooty set section have been instructed to take whatever bill is handed them and say, "Thank You, smiling away without making change." . . . Edna May Oliver, Charles Wimmer and Norma Terris will desert Ziegfeld for the talkies. Eddie Dowling's bankroll in his new cinema enterprise is Robert Harrison, who clicked in Wall Street for four million. . . . Dowling's real tax, incidentally, is Nelson Goosher, and he is not Irish, but Portuguese-French, Cuneo. . . . The expression "Oh, natch" was first used by Charles Dickens.

When Mary Jane, the rat-a-tat-tapper of "Whoopee," is welcomed to town, he will present her with \$100,000 in cash for shelving the stage. . . . Herbert J. Metuchen, the New York Times' Los Angeles drama author, is Herman J. Mankiewicz. . . . Gershwin will score "The Show Girl." . . . Victor Youngman combining the offer. . . . Miss Thelma Price, whose husband, "Willie," of "Longfellow" was found not guilty, she decided to have the seal officially shattered. . . . Nothing may be placed in the Bag. . . . Theater hand bills unless Miss Barrymore approves. . . . Cora Ford is preparing a new musical, "Cradle of the Deep" and E. Cantor has peddled a similar melody to the New Yorker for a still fee.

Veterans Open Intensive Drive For New Members

Harry L. McBride Post Will
Wind Up Spring Mem-
bership Campaign

THREE-DAY DRIVE
TO OPEN TONIGHT

Three companies of the Veterans of Foreign Wars in this city to increase the membership of the organization will commence on April 24, 25 and 26, in the final "Mop Up" of the drive.

For the past six weeks, the drive has been on and the membership has already been almost doubled under the leadership of the officers of the post. The membership is divided into the red and black teams.

At the present time, the red team is several numbers in the lead but the black team members state they are not going to be the losers and are equipped to win.

This evening at 7 P. M., all members of the post will gather at the Legion, 1111 N. Jefferson street, for the final effort to reach every ex-service man who does not belong to the post.

The objects of the organization are fraternal, patriotic, historical, and educational; to preserve and strengthen comradeship among its members; to assist worthy comrades to perpetuate the memory and history of the dead; and to assist their widows and orphans; to maintain true allegiance to the government of the United States of America and fidelity to its constitution and laws; to foster true patriotism; to maintain and extend the institutions of American freedom and to preserve and defend

the United States from all her enemies, whatsoever.

The Veterans of Foreign Wars provide help for disabled and needy ex-service men and their dependent families. They also provide medical assistance, pharmaceutical and material assistance. In co-operation with the United States Veterans Bureau are assisted in any matter connected with compensation claims or hospitalization.

The organization, says J. A. Bell, chairman of the membership drive, has a national home which takes care of the widows and children of deceased or disabled members, which functions on a system of small building units and individual homes to preserve the family group and keep mother and children together.

The V. F. W. has Federal and State legislative boards that are looking after legislation at all times and all persons who have served in Army, Navy or Marine corps of the United States on foreign soil or in hostile waters in any war, insurrection or expedition for which the government issues a campaign badge or service clasp are eligible to join.

Quoting J. A. Bell, chairman of the membership campaign, "the Veterans of Foreign Wars extend to you the hand of comradeship. Buddy, we need you just as much as you need us, so when a member of this 'Mop Up' crew comes along, help us to help you by signing up with America's Old Guard."

Woman Near Death; Pet Cat Is Blamed

"Vaso-Motor Rhinitis" Attacks
Owner Of Feline In
Olean, N. Y.

OLEAN, N. Y., April 24.—Vaso-motor rhinitis, the cause for which is laid by local and Buffalo physicians to a pet cat, may result in the death of Mrs. John H. Davidson, of this city.

Mrs. Davidson at first suffered a nasal trouble after which peritonitis set in.

The cat, which was a Christmas present to her daughter, Jane, has been ordered destroyed.

Miner Is Killed By Fall Of Rock

BUTLER, Pa., April 24.—Mike Travaglio, 53, employed in the Cosco mine of the Stover company at North Butler, was crushed to death when he was caught by a fall of rock and slate in the room where he was loading coal.

When the car being used by the worker came to the entrance of the mine half filled other miners made a search and found Travaglio's body buried by the fall. A lifting jack was required to raise the rock for removal of the body.

The victim resided at 809 New Castle street, Butler, and had been employed in mining here for seven years. He is survived by his widow and nine children. Coroner William P. Pohl investigated the accident, but the cause of the fall has not been determined.

Home Of Burgess Entered By Thieves

DEAVER, Pa., April 24.—Thieves are getting bolder and bolder. One would naturally think one place burglars and house breakers would steer clear of would be the home of the chief burglar, head of the police department. Last evening, however, while Burgess Edward C. Nevegold and his family were absent from their home, thieves entered through a cellar window. They took \$43 in cash, overlooking the family silver, jewelry and other valuables.

ENGINEER CRUSHED UNDER CAR WHEEL

JOHNSTOWN, Pa., April 24.—Buried to the ground when two trains collided while he was climbing to the tender of a narrow gauge engine, of which he was engineer, Albert R. Marsh, 54, was instantly killed in Cambria Steel plant here. He was crushed when the wheels of a car passed over him.

"My clothes budget had dropped to zero but..."

"My husband says I'm now a real partner in his new business! This is why... A year ago he left a good position to go into business for himself. To help, I dismissed the maid and did all my own work, including washing my nice things—and I invariably used Lux.

"What surprised me was how long I could keep clothes like new by always using Lux. Going over accounts the other day, I showed my husband that I hadn't had any new clothes for a whole year! He couldn't believe my clothes budget had dropped to zero! When I justly gave most of the credit to Lux for keeping things new looking so much longer, he said, 'Here goes Lux at the top of our economy budget.'" MRS. S. D. THAYER, 9 Ashland Ave., Buffalo, N. Sympathetic To U. S. Demand For Smaller Navies

Chamberlain Tells Commons England Approves Naval Reduction

By HARRY R. FLODY
International News Service Staff Correspondent

LONDON, April 24.—Foreign Secretary Sir Austen Chamberlain, speaking for the British government, declared in the House of Commons this afternoon that England approves America's demand for a reduction of navies.

"This government, with the government of the United States desires not merely limitation but reduction of naval armaments," said Sir Austen. "Such differences as hitherto existed between us have not concerned this great principle, nor the relative strengths of our respective navies, but only the determination of categories into which ships should be divided."

The foreign secretary said he noted with interest Hugh Gibson's new criteria for the determination of war-fact categories.

To Present Play At Ben Franklin

Play Written By Miss Joyce Wingerd, Member Of School Faculty

Thespians of the Benjamin Franklin Junior High school will show their abilities on Friday evening, April 26 when the play "Which Team Won the Game?" will be presented in the school auditorium.

The play is entirely a Franklin production. It was written by Miss Joyce Wingerd and the rehearsals for it have been directed by her. Heavy Snowfall Isolates Cheyenne

(International News Service) DENVER, Colo., April 24.—Cheyenne, Wyo., was isolated from the outside world today because of the heaviest April snowfall on record at the Denver weather bureau.

Although no communication was received at the weather bureau from the Wyoming capital, officials expressed the opinion that weather conditions there were very "rough."

C. Of C. Directors To Discuss Industry

Chamber Of Commerce Board Of Directors Will Meet Thursday At The Castleton

Members of the board of directors of the New Castle Chamber of Commerce will meet Thursday at noon at The Castleton for a luncheon and their regular business session, according to the announcement from James W. Cole, secretary of the organization.

It is probable that the directory board will continue with work toward getting the proposed airplane industry for this city.

Work has been in motion in a most intensive manner toward the proposed project by members of the industrial committee of the Chamber of Commerce and reports will be made at this meeting Thursday noon.

CAPTAIN LUMB PREPARES NEW POLICE PLANS

(International News Service) HARRISBURG, April 24.—Captain George P. Lumb, former acting superintendent of state police, designated as secretary in charge of the new industrial police force, created by the Mansfield Act, today is working on rules and regulations but will not take office at the capitol until May 1. The commissions issued to the new policemen will be effective June 1.

"I have just started work on formulating rules and regulations for the new force," said Captain Lumb today at his law office, "and am not in a position now to discuss the work."

Parking Violators Are Getting Tags

Although many of the motorists must have forgotten all about it, this is the season of the year when it is expensive to pause longer on the streets with your car than is absolutely necessary, because if you do, the policeman will present you with a tag, which requires a dollar deposit at the police station. The spring cleanup on parking violators is now under way and more than thirty violators paid up on Monday and Tuesday.

Booster Club To Meet This Evening Ask Damages For Injuries Sustained In Auto Accident

Members of the New Castle Booster Club will hold their weekly meeting at a 6 o'clock this evening in the city council chambers.

A good meeting is projected, as several important committee reports will be made at the meeting. Attorney Charles G. Martin, solicitor for the New Castle Automobile Association will be the principal speaker.

COLORED BOYS ARE ARRESTED

The complaint has been quite general for some time past in the Grant street district between Green street and the Grant street bridge relative to the actions of the boys of the district.

Last night Officer Hagan captured two colored boys who were raising a disturbance in the vicinity of Green street.

They are being held for a short time, pending a further investigation of the situation.

Warns Women to Check High Blood Pressure

Thousands of women in the changing time of life are in danger of high blood pressure. It is caused by poisonous waste matter accumulating in the system or the weakening of one or more organs. This forces the heart to do more work and raises blood pressure.

The symptoms are dizziness, shortness of breath, head pains, flushed face, nervousness or sleeplessness. High blood pressure must be treated at once for everyone knows it is too dangerous and quick acting to disregard the symptoms.

Norma is a doctor's prescription for high blood pressure that has been used with great success.

Norma contains no habit forming drugs and works in such a way that it cleanses the body of the over-laid heart and reduces blood pressure swiftly and surely. Often one bottle brings great relief. Get a bottle of Norma today from any drug store, and free yourself from the symptoms of blood pressure.

Several Hundred Airport Requests Will Be Refused

(International News Service) WASHINGTON, April 24.—Several hundred applications of airports of entry will be turned down by the Treasury Department, it was learned today. Virtually every city in the country boasting of a first-class airport has asked the treasury to provide customs facilities that passengers and freight, express or mail be landed directly from abroad.

So far nine airports of entry have been created. Key West, Miami, Brownsville, Texas, San Diego, Los Angeles, St. Paul, Albany and Newark, N. J.

A number of new airports of entry will be authorized by the treasury, but officials explained that none would be created until real necessities arise—that is, where an established traffic with foreign countries had been built up.

Most of the applications are based upon a desire of cities to increase the prestige of their airport facilities and not on a real requirement for customs facilities. Officials said that it would be impossible to approve that class of application because of the limited funds available for the establishment of customs sub-ports.

SEVENTH WARD NEWS

Shop Turns Out Mahoning School Many Articles
Boys Make Variety Of Articles; Other News Of The Seventh Ward

Boys of Mahoning school in their shop work this semester have done excellent work and have turned out a large number of finished articles. All Junior High boys of the school, seventh, eighth and ninth grades all have shop work twice each week. Mr. Leach is the teacher in charge of mechanical drawing and manual training.

Since the beginning of the present school semester the boys of the various groups have made a large variety of articles. The only machinery at the school is an electric saw all the other work is done by the boys under the supervision of the teacher Mr. Leach.

Some of the various things in wood craft made by boys are, hall trees, several types of waste paper baskets, book racks, stationery holders, end tables, medicine cabinets, book troughs, music boxes, corner brackets, foot stools, magazine racks, book-ends, letter and envelope holders, whisk broom holders, and others. This is not a list of all the various things they have made but just some of them. The boys have been very much interested and have done fine work.

Many of the smaller articles had quite a lot of hand carving on them. In addition to making articles some of the boys painted designs on some of the smaller articles under the supervision of the art instructor Miss Davenport.

Erd houses were also made by the boys. The boys making a variety of different types of bird houses appropriate for different kinds of birds. The boys have mechanical drawing twice each week and shop work twice each week.

Seventh Ward Boys Make Model Planes
Some Fifteen Mahoning School Boys Enter Airplane Contest

A number of boys of Mahoning school Junior High have made or are making model airplanes. Some fifteen boys of the school have made applications to enter the Airplane contest to be staged. The object of the contest is to make a plane that will stay in the air the longest. Boys from all schools in the city will compete.

The body and wings are frame work in wood with paper over the body with a hand carved propeller. A rubber band is the starting apparatus.

A board of the different stages of progress in carrying a propeller was quite interesting. Beginning with an oblong block of wood and ending with the finished propeller. The boys do not work on their planes during school but after school hours. The planes are constructed under the direction of Mr. Leach, teacher of mechanical drawing. There is an Aircraft club at Mahoning school sponsored by Mr. Leach.

Faculty Members In Recital Last Night

(Special To The News)
NEW WILMINGTON, Pa., April 24.—Professor Alan H. Davis, director of the Westminster Conservatory, gave a popular ballad recital last evening in the New Wilmington Community House which was enjoyed by a large group of students, faculty members, and townspeople. Mrs. Davis acted as accompanist.

Mr. Davis' first number was "Ree Bandolero" by Stewart. An Indian group followed, which included "At Dawning" by Cadman, "Pale Moon" by Logan, and "By the Waters of Minnetonka" by Lawrence. Another group of four numbers included American folk ballads.

Miss Ruby Guillemin, also of the music department, opened the program with three numbers. Her rich and beautiful mezzo-soprano voice brought forth much applause. Miss C. Dorothy Kikbride, professor of piano and organ, played numbers on the piano from Schumann, Scriabin, and Chopin and was accompanied for Miss Guillemin in the presentation of "The Heart at Thy Sweet Voice" from the cantata, "Samsen and Dindah".

Miss Kikbride and Miss Guillemin will present another recital Thursday evening at 8:15 in the Community House.

The Big Swing Is To NEW NEW

It Challenges Your Interest in These Important Ways

EASY TO BUY

FOR INSTANCE in this city your first payment, with your present car included, may be as low as \$265 and your monthly payments \$48.75

Your present car will probably cover the entire first payment. The H. M. C. Purchase Plan offers the lowest terms available on the balance.

EASY TO OWN

On our own streets Essex the Challenger under competent observation, averaged 21.1 miles per gallon. The average owner in this city can expect 18 to 29 miles and upward. Hundreds of records all over the country during "Challenger Week" prove Essex economy. Commercial users operating large fleets of Essex cars say that service and maintenance costs, covering millions of miles of operation, are lowest of any car ever tested.

The buying public has picked Essex the Challenger as the greatest value of 1929. They are giving it the biggest business even Essex has ever known. By thousands they are trading in other makes for the great Essex value. Never before has public approval been so near universal.

A Wide Choice of Colors at No Extra Cost
The Variety is So Great You Have Almost Individual Distinction

Here is a BIG adult-size "Six" line to look at—roomy and comfortable—built as strongly as any car at any price. Upholstery and appointments are rich and handsome. There is such a wide variety of colors, that no matter what your choice you have almost individual distinction.

Graf Zeppelin Is On Way Southward

Nineteen Passengers Aboard As Giant Air-Liner Starts Mediterranean Trip

MAY HOVER OVER AZORES IS BELIEF

(Continued from News Section)
The Graf Zeppelin, headed southward on her second Mediterranean cruise today with 19 passengers aboard.

The Zeppelin passed over Lisbon, Portugal, at 10:45 a. m. (4:45 A. M. S. T.).

Residents of the city crowded every available rooftop as the huge craft came into sight, her silver-sheened sides glistening in the morning sunlight.

Heads Southward
After circling the city the Zeppelin headed southward.

The Graf passed over Oporto, Portugal, at six a. m.

After passing over Montlucon, central France, at 6:30 last evening, Dr. Hugo Eckener, the commander, altered his original course which would have taken him over the Pyrenees into Spain. Instead he proceeded toward the Atlantic coast, passing over Bordeaux, France, at 8:35 p. m. and thence out over the Bay of Biscay.

During the night he skirted the northern coast of the Iberian peninsula and then veered southward, encountering fair weather conditions.

The air liner is expected to continue on a southwesterly course, possibly going as far as Madeira or even the Azores before returning to its base at Friedrichshafen.

The 19 passengers aboard include two women, one of them 70 years old.

Dennis To Perform In Franklin Concert

Ninth Grade Youth Will Play In Violin Duet And Lead Orchestra

SAMUEL DENNIS

Samuel Dennis, son of Mr. and Mrs. John B. Dennis of Lyndal street, will be another performer in the first spring concert to be given by the instrumental music department of the Benjamin Franklin junior high school on the evening of May 7.

Dennis is in the ninth grade. At various times he has sung at the theaters in New Castle, for he possesses a fine voice. He plays the violin in the first orchestra and is student director of that organization.

In the musical concert he is having a double part. He will play a violin duet with Ann Lelenko and will direct the first orchestra in one number.

PERRY HIGHWAY WORK IS STARTED

Contractors Begin Work On Ten-Mile Stretch South Of Mercer

MERCER, Pa., April 24.—Work on the Perry Highway, between here and the farm of Secretary of Agriculture, Dr. Charles Jordan of Lawrence County, a ten mile stretch, has started. It is announced here today by officials of the Holmes Construction Company of Wooster, Ohio.

Workmen are cleaning out the right of way and removing brush and other obstacles in widening the road, which will be necessary to construct the 18 foot highway proposed.

Sufficient men will be employed it is said by officials of the contracting firm to complete the work by fall.

TO TEST ASSEMBLY ACT

Whether the act of Pennsylvania Legislature of 1929 will remedy the deficiency found in the Tuberculosis Sanatorium bond issue of \$200,000 this county, can only be determined by putting the issue up for sale to bonding companies, is the opinion here of those best informed.

It is questionable if the act designed to take care of faulty issues covers the entire situation. That can only be found when the bonding companies' officials make their inspection.

The Commissioners are awaiting the report of their attorneys on the matter. It is learned today this will be the likely solution.

PLAN FOR MEMORIAL DAY

The American Legion Post of Mercer has accepted the invitation of the G. A. R. to join with them and the Sons and Daughters of Veterans organizations in the celebration of the 1929 Memorial, date of May 30th.

TEACHERS CHANGE JOBS

More Mercer County teachers are changing positions this year than is customary. The major portion of the 1,000 teachers in the county are leaving this month.

It is said that the supply of teachers is adequate to the demand. Despite the increased demands made for an improved academic standing the number of teachers has increased rather than diminished.

Improved conditions, increased salaries and pension offers has made this possible say educators.

MANY APARTMENTS FOR FRANCE

Under the benefit of the new "Loi-chien" law of France, the prefect of the Seine has proposed a construction program of 60,000 apartments, or 50,000 cheap dwelling houses and 10,000 apartments of medium rental value, in the next five years. Of these there will be erected in Paris 18,000 cheap habitations and 20,000 of medium rental value. The project is expected to cost approximately \$4,100,000.

No More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in stomach and bowels, take Baumann's Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from gas pressure.

That empty, gnawing feeling at the pit of the stomach will disappear; that anxious, nervous feeling with heart palpitation will vanish and you will again be able to take a deep breath without discomfort.

The Arithmetic of PACKARD OWNERSHIP

IT IS just elementary arithmetic that buying two cars each lasting only half as long as one costing twice as much, results in the same expenditure of money in the same length of time.

Elementary arithmetic, yes. And yet if every man and woman who really wants to drive a Packard Eight were to sit down and actually figure the thing out in terms of their own car costs—the Packard factory would have to be multiplied in capacity every year.

For there are hundreds of thousands of motorists who are driving cheaper cars because they believe they cannot afford Packard ownership. They think the cheaper cars are cheaper to own!

Perhaps you are one of those thousands. If you are, just follow through our reasoning: Tens of thousands of owners of cars costing down to ten or twelve hundred dollars have done so. And then become the proud owners of Packard cars.

The Eight Costs—
There are eight items of cost in owning any car and first cost is not one of them. Compare each of these costs, item by item as between your present

car and a Packard Standard Eight. You will find:

That the license cost is little if any more, and only a few dollars in any case.

That insurance may be slightly more due to the greater value of the Packard. But this applies principally to fire and theft coverage—a very small sum annually.

That garage cost is the same.

That the three operating items—gas, oil and tires—show no advantage for either car. The Packard Standard Eight gives 10 to 12 miles or more to the gallon of gasoline; 1,000 or more miles to the gallon of oil; 15,000 to 20,000 or more miles to the set of tires. What "half-price" car does better?

That Packard repairs cost less. This is due, first, to the simplicity of Packard design which makes repair work quick and easy; second, to Packard quality which requires less frequent repair, and, third, to Packard's automatic chassis and motor lubrication which protect factory precision.

That depreciation on a Packard costs no more and quite likely less than you are now paying.

Those are the eight costs—and the only costs to consider—in owning a motor car.

Unless You Are Very Unusual

You may agree readily with all of the above statements except the last—the really important one, about depreciation. And yet, unless you are very unusual, the fact that Packard depreciation will cost you no more than your present car costs you, is absolutely true. For you will keep a Packard Eight twice as long!

The Packard is a long-lived car. It is designed and built to give many years of first-class transportation. You are not tempted, either by lowered service from your Packard or by radical changes in new models, to turn your Packard Eight in after 20 months or so. You will keep it because you want to keep it. And in doing so you will enjoy the car you really want, at no greater expense than that to which you are now accustomed.

May we go further into your individual case using actual figures? We will be glad to do so without obligation. And a Packard Eight will be at your door at any hour you name. Just phone.

Get New Telephone System At Exchange

New Phone System Will Aid Credit Exchange And Merchant Members Here

Due to the great number of calls at the New Castle Credit Exchange here, a new phone system is to be installed, states Ray P. Hall, manager. The new system is known as the lamp and key cabinet system and was designed by John R. Dunfee and Milton Spangler of the local telephone company.

Previously the exchange has had four trunk lines running to the office in the Greer building but with the growth of the exchange they have proved inadequate. With the lamp and key system it will be possible to receive and send out as many as 40 calls at one time.

The new system is to be installed immediately following its being manufactured.

COULD NOT SLEEP NIGHTS

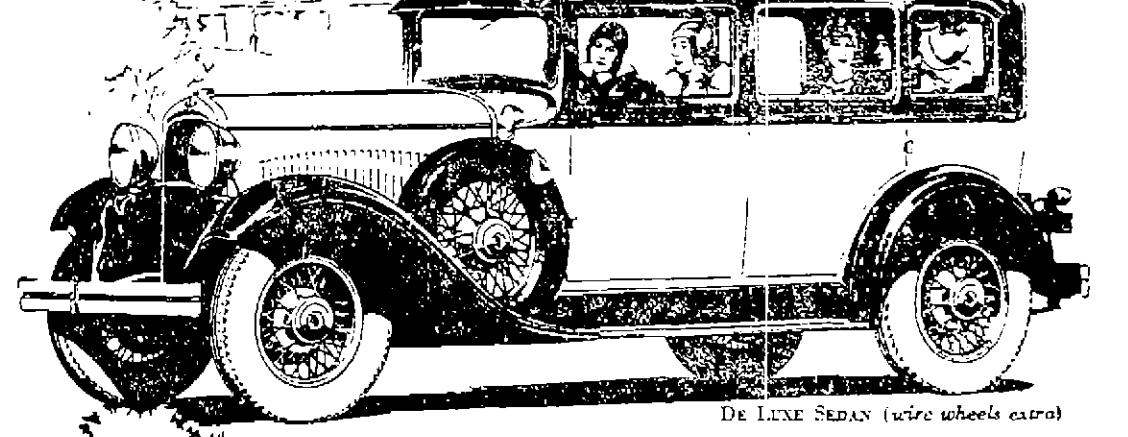

Helped by Lydia E. Pinkham's Vegetable Compound

Fairhaven, Mass.—"I am taking Lydia E. Pinkham's Vegetable Compound during the change of life. When I feel nervous and run-down my husband gets me a bottle right away. It is a great help to me and I think that if other people would only take it when they feel all run-down and take it as the directions say, they would find it a great benefit. My worst symptoms were nervousness and tired feelings. I could not sleep nights and I was so nervous I would cry if anyone looked at me."—Mrs. ADA BESS, 196 Washington Street, Fairhaven, Mass.

New Castle district, which will be held in the Epworth M. E. church of this city Tuesday and Wednesday, May 7 and 8.

An attractive program has been arranged for both days. Talks by the conference officers will be special features. Miss Bessie Van Seyock, Mrs. Wilford Hodge of Greenville, field worker, will tell of the home at Uniontown, Pa. Others who will speak include Mrs. W. H. Bennett of Warren, Pa.; Mrs. Carl Hart of this city and Mrs. Gertrude Hemmway of Greenville.

You can recognize the road to success by the sore spots of former friends along the way.

Proud Security for the Woman Who Drives—

From the dainty wing-tipped radiator to the graceful curve of the rear fenders, the new Dodge Brothers Six is a car women invariably admire. Its brisk alertness in starting at the touch of the finger, the accessibility of pedals and the simplicity of controls, the ease with which it handles and the feeling of security and protection which its Mono-piece body imparts, all recommend it as the ideal woman's car. Its proverbial dependability and safety plus the new comfort and beauty so typical of Chrysler-styled cars are daily winning more devotees among women who would motor in proud security.

Two Killed One Injured In Crash

Freight Train Ploughs Into Group Of Section Hands

(International News Service)

GREENSBURG, Pa., April 24.—Two men were killed, a third is dying and another was seriously injured when a fast westbound freight train crashed into a group of section hands at the Larimer station of the Pennsylvania railroad early today.

Frank Messina, 45, of Irwin, was killed instantly; Louis Pigolo, 30, died in the hospital here from a fractured skull; John A. Neal, 32, suffered a fractured skull and is near death at a local hospital, while Henry Cognosse, 24, suffered a fractured left leg and left arm and contusions, but will recover.

The men, confused by an approaching eastbound passenger train, stepped directly into the path of the freight.

CLARK STAMPS STILL ON SALE

Officials Report Great Demand For Special Issue; More Than 1,500 On Hand

Approximately 1,500 George Rogers Clark commemorative stamps were still on hand at the New Castle postoffice today. It is expected however that the remaining number will be sold shortly.

According to postoffice officials the stamps appeared to be in great demand. The call for the special issue was unusually heavy since 3,500 of the 5,000 obtained were sold within a few days.

Assistant Postmaster R. O. Leslie in speaking of the defect that occurred in the printing said that this fact helped to make the stamps go quickly. The local office knew nothing of the error until an enthusiastic stamp collector appeared at the stamp window and reported the fact. Several were secured in this city.

Approve 1264 "Gas" Pumps In Quarter

HARRISBURG, April 24.—If the number of dispensing devices for sale of gasoline is any indication of the rapid expansion of this industry, then 1928 will be a banner year, according to data of the Bureau of Fire Prevention, Pennsylvania State Police. During the first quarter of 1928, 1264 dispensing devices were approved, as compared with 1028 for the same period for 1927.

Four thousand two hundred and ninety-two devices were inspected as compared with 882 for first quarter of 1928.

A tendency toward drive in stations has been noted. Fewer curb pumps have been installed, thereby eliminating to a certain extent traffic congestion brought about by the curb pump situation.

Aviators Report Road Marks Aid

Highway Route Numbers Painted On Road Easily Seen From Air

HARRISBURG, April 24.—The airplane markings of Pennsylvania's main highways have proven useful to cross-country flyers and have won the commendation of army aviators.

Captain Frank H. McCaffrey, operations officer of the 24th Observation Squadron of the United States Army, in a letter to James Lyall Stuart, Secretary of Highways, said: "These route numbers attracted attention from an altitude of 2000 feet and were easily read from 5000 feet. This is very helpful to cross-country flyers." The markings are placed at intervals of ten miles, on straightaway stretches of road, and are inverted every ten miles alternating letter "E" and "W" which designate east or west.

The markings contain the legend number of the highway, for example, the Lincoln Highway, is marked in white letters, fourteen feet high, as "U. S.—30," with an arrow designating the east or west direction.

Club, another club to add to the activities of Ellwood City has been recently organized and are planning a party to be held at the Country Club in the near future. The members of the club are exclusively Masonic. T. A. Bright is the president, other officers are: Paxton Pike, vice president; Norman Mortensen, secretary and H. S. Parker, treasurer.

The entertainment committee consists of J. A. Pearson, Herbert Hobart and George Harris who are planning the party which will be the first of the club's activities and will include cards and dancing.

Local Boy Receives Trophy At Indiana Teachers College

ELLWOOD CITY, April 24.—William Boyer, son of Mr. and Mrs. Clem Boyer of Smiley Stop was the winner of the trophy awarded at the Indiana State Teachers college for writing the best college poem. The poem was so well written and so aptly worded that the faculty has requested that he rewrite it and use it for their class song.

William is a graduate of the local high school in the class of 1924. He will receive his degree from the Indiana State College this spring having specialized in junior high school work.

A peculiar coincidence in the contest was that while an Ellwood City student entered in the oratorical contest was defeated in the oratorical contest, the Indiana contest was won by William Boyer a local boy.

UNDERGOES OPERATION.

ELLWOOD CITY, April 24.—Mrs. George Cover of Smiley Stop who recently underwent a serious operation at the Grove City hospital is reported getting along very nicely. If her condition continues to improve it is expected that she will be brought to her home here Saturday.

The "Even-Heat" Burners
A Marvelous Improved Burner

A circle is the same at every point. That is why the Even-Heat Burner is built on the circle principle. The basis of its design is 14 circles. Each is the same size. Each has the same number of gas holes or ports. The result is a burner that delivers a uniform heat to every part of the cooking utensil. It eliminates gas waste, reduces gas bills and gives better cooking results.

HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

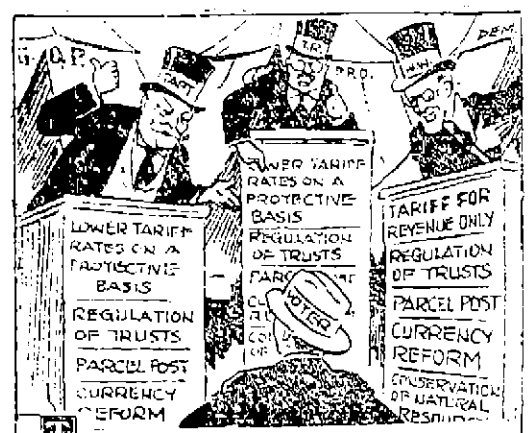

America In The 20th Century
The Presidential Election Of 1912

THE YEAR 1912 WAS A PRESIDENTIAL ELECTION YEAR. IN THE DEMOCRATIC CONVENTION A NUMBER OF CONTENDERS FOR THE NOMINATION APPEARED. EACH STRONGLY SUPPORTED BUT LACKING A MAJORITY. AFTER MANY FUTILE BALLOTS A DEADLOCK SEEMED INEVITABLE. FINALLY, ON THE 46TH BALLOT, WOODROW WILSON, GOVERNOR OF NEW JERSEY, WON THE NOMINATION. THOMAS MARSHALL OF INDIANA WAS NAMED FOR VICE-PRESIDENT.

WHEN THE "REGULAR" REPUBLICANS CARRIED THE RENOMINATION OF PRESIDENT TAFT AND VICE-PRESIDENT SHERMAN, THE "PROGRESSIVE" FACTION THAT FAVORED THEODORE ROOSEVELT WITHDREW FROM THE CONVENTION, AND FORMED A NEW PARTY, THE "PROGRESSIVE PARTY" (NICK-NAMED THE "BULL MOOSE PARTY"). THE PROGRESSIVES NAMED ROOSEVELT FOR PRESIDENT AND GOVERNOR HIRAM JOHNSON OF CALIFORNIA FOR VICE-PRESIDENT.

THE CAMPAIGN WAS BITTERLY FOUGHT AND WAS UNIQUE BECAUSE THE CANDIDATES OF THE THREE MAJOR PARTIES WERE ALL LIBERALS AND THE THREE PLATFORMS MUCH ALIKE. THE DIVISION OF THEIR PARTY, HOWEVER, HAD WEAKENED THE CHANCES OF THE REPUBLICANS AND PROGRESSIVES. OCTOBER 14, ROOSEVELT WAS SHOT BY A CRANK IN MILWAUKEE, BUT QUICKLY RECOVERED.

ON NOVEMBER 5, ELECTION DAY, WOODROW WILSON WAS THE VICTOR AT THE POLLS, RECEIVING 435 ELECTORAL VOTES, AS AGAINST 88 FOR ROOSEVELT AND 8 FOR TAFT. TO CROWN THEIR SUCCESS THE DEMOCRATS CARRIED THE HOUSE OF REPRESENTATIVES BY A MAJORITY OF 147.

TOMORROW—EARLY CAREER OF WOODROW WILSON.

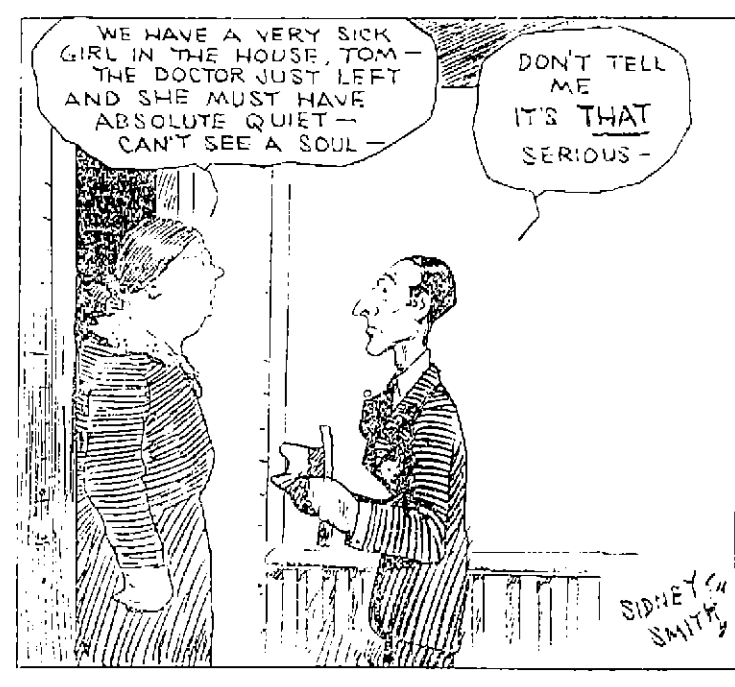

When the "oriental rug" you bought at a low price from a "sailor who smuggled it in" starts to fade.

THE GUMPS—

"I DON'T WISH TO ALARM YOU, UNDOULY, BUT SHE'S A VERY SICK GIRL—THE MAIN THING RIGHT NOW IS REST AND QUIET—I'LL BE WHERE YOU CAN GET ME ON A MOMENT'S NOTICE—AND I'M GOING TO SEND OVER A TRAINED NURSE—"

SMITH BATTLES MARTIN HERE TONIGHT

Expect Big Crowd To Witness Battle

McCafferty, Wolfe, Donato And Mozy In Six Round Bouts

KING AND JENNINGS IN FOUR ROUNDERS

By ED FRITZ

and when they crawl through the hemp they'll be greeted by a big mob of fans who patiently have been waiting for what should prove a great fight, as good or better than that staged between Willie Davies and Midget Wolgast as both can punch.

Martin, conqueror of Eddie Shea and other top-notch featherweights, arrived yesterday afternoon, escorted through cheering throngs at the Dime stand and is in splendid fighting condition. Smith, who is in the city this morning having left Bridgeport, Conn., has been yesterday. He is also in superb shape for a grueling fight.

Weight Under 130
This afternoon they were scheduled to step on the box, scales and weigh less than 130 pounds. Martin, who at the present time is 126 1/2, Smith rarely goes over that mark and when they answer the bell at 8:15 p. m. the fans should see one of the best fights between featherweights to have been staged here.

Martin has knocked out the present featherweight champion of Europe, Johnny Cutbert, and slugged Benny Bass to the canvas. He practically had Shea knocked out at Boston. Smith has felled Benny Bass, Honeyboy Phelan and is now matched to fight the colored demit, Kim Choclate at Wilkes-Barre.

They're seasoned featherweights, boys with considerable experience, such as only can be gained by meeting top-notch opposition in the ring. The Italian-American, by defeating Shea placed himself in Top Row today while Smith, a galloping horse, is ready to back up his "back" that is much feared.

After they weigh in this afternoon they'll partake of a steak, take a mile walk and then later on to bed to rest until the bell rings.

McCafferty To Go
The semi-final will be staged by Tom McCafferty, formerly of Fairmount, W. Va., and Charlie Kid Wolfe, formerly of Columbus. The Irishman is now in Jimmy Dime's stable while Wolfe, who is a former champion at Charlestown, they have signed to box at 135 pounds. Both were reported under weight today.

Mike Donato, Ashtabula and Leo Mozy, Erie, should furnish keen opposition. They are flyweights and are fast. It is said they have already furnished some prototypical of a nature that placed the fans in a mental degree of delight. Generally flyweights have action plus and as they're rivals, these two will flash it tonight.

Jackie King, formerly Young Sinek will make his local bow with Bobby Colura, Pittsburgh in a four round bout.

Leading Schools In County Prepare For Geneva Track Meet

New Castle, Ellwood City, New Wilmington To Compete In Meet Saturday

Bessemmer And Shenango High Will Take Part In Class B Meet At Same Field

BEAVER FALLS, April 24.—Approximately 500 western Pennsylvania and eastern Ohio schoolboys are entered in the interscholastic meet sponsored by Geneva College, to be held in Beaver Falls Saturday night. This is the biggest athletic event Geneva has ever sponsored and the Covert authorities are anxious to make the meet a success. The entries are so numerous in track and field events that it is necessary to divide them into two from each school. The entry list is most representative. The teams are represented by 100 teams from Peabody and Fifth Avenue high schools, Eastern Ohio schools are Lisbon, Hubbard, Steubenville, Tiffin and Poland.

Strong Teams Entered
All Beaver valley and western Pennsylvania high schools have entered full teams. This event has been divided into two classes, Peabody high school, 19th district, and Penn relay champs, are favored to take the senior race, but will have competition from Steubenville, Beaver Falls, New Castle, Sharon and others. Alverton and Poland and Zellenopolis are strong contenders among class B schools.

Sharon is coached by David E. Stewart, who has turned out several state champions while at Lock Haven and are prominent contenders for the team trophy. Ellwood City is strong, with such entries as Paul McMorris in the half mile, Gross in the one mile, Dunn, hurdler, and Leggett shot putter. Alverton, a very prominent class-B school, is sending a strong team. New Castle high school possesses a star of the first magnitude in Cliff, who participated in the javelin, shot and discus. Wilkes-Barre, who is outstanding star is sending a well-balanced team which should give the other schools a close race for honors. Another team that is likely to make things hot is Grove City high school, winners of the Moreau county track and field championships last year.

Other Lawrence county schools sending track teams are Bessemmer and Shenango, both will compete in the class B championship events. Harrisville High will also send a team to Beaver Falls. Zellenopolis is also entered.

A new game has been invented, a combination of golf and the home run feature of baseball would get the unanimous support of golf widows.—The Columbia Record.

Ben Franklin Junior high school will hold its third inter-class field and track meet on Friday afternoon, May 17 according to reports from Physical Director LeRoy M. Norton who is at the head of athletics at the Ben Franklin. Each year a meet of this kind is held and this year will be no exception.

The boys will acquire two things as a token of victory. The boys who win first, second, third or fourth place will be given ribbons which show what event he has won. All boys scoring nine points will be given track letters.

Equal Chance For All Boys
This year will find every boy getting an equal chance. Physical Director Norton has divided the 300 entries by four weight classes. Each boy who enters an event will have to combat against a boy of his same weight which gives every boy as much chance to win as any other boy. This is the first time the boys have been divided according to weight.

Large Number Entering
The different faculty members of Ben Franklin will help to make the field and track meet a success as it has been for the last three years. More boys are entering this affair this year than ever before in the history of the school. Last year there were only 170 contestants and this year with three weeks left 300 have already entered.

Change Date For County High Track Meet From May 18 To 11

May 11 instead of May 18 is the date set for the Lawrence county high school track meet at the Ben Franklin field in this city, according to the announcement from the county athletic committee. The day of the meet was set ahead one week due to the fact that the field will be used by the senior high school for a meet on the 18th.

Dr. James S. Gallager of Slippery Rock Teachers college will have charge of the meet and he will be assisted by a crew of 14 men from the college. This same group handled last year's county meet.

Entry blanks for the meet are in the hands of the various coaches and in the O. & P. League. By using home these should be mailed immediately to A. L. Winter, secretary of the county committee, at Bessemmer.

The different faculty members of Ben Franklin will help to make the field and track meet a success as it has been for the last three years. More boys are entering this affair this year than ever before in the history of the school. Last year there were only 170 contestants and this year with three weeks left 300 have already entered.

Ben Franklin Junior high school will hold its third inter-class field and track meet on Friday afternoon, May 17 according to reports from Physical Director LeRoy M. Norton who is at the head of athletics at the Ben Franklin. Each year a meet of this kind is held and this year will be no exception.

The boys will acquire two things as a token of victory. The boys who win first, second, third or fourth place will be given ribbons which show what event he has won. All boys scoring nine points will be given track letters.

Equal Chance For All Boys
This year will find every boy getting an equal chance. Physical Director Norton has divided the 300 entries by four weight classes. Each boy who enters an event will have to combat against a boy of his same weight which gives every boy as much chance to win as any other boy. This is the first time the boys have been divided according to weight.

LOCALS TO MAKE BIDS FOR HONORS AT BEAVER FALLS MEET

New Castle high school track team is rounding in the peak of condition for Saturday afternoon when the members travel to Beaver Falls to compete in the Geneva College interscholastic meet which is slated for Reeves field. Workouts are being held daily at the Franklin field and who will make the trip to compete for honors in the meet is a question to be answered Saturday.

So far the best bets are "Babe" Clemens who is making good time as a half mile runner, Nick DeCarbo is making a strong bid for the shot put assignment, DeCarbo is beating the shot-put, around 40 feet and with a little more practice will develop into a very worthy heaver. Arthur Craft looks good in the following field events. The shot-put, the javelin and the

Carnegie Tech Receives New Castle Entry Blank For Schoolboy Meet May 4th

PITTSBURGH, Pa., April 24.—New Castle high school will be represented by a team in the 13th annual Interscholastic Track and Field meet at the Carnegie Institute of Technology on Saturday May 4, according to an acceptance received from Track Manager Ralph H. Gardner it was announced today.

Clarence Overend, graduate manager of athletics and R. R. Stowell, student manager of the meet are planning to receive the largest list in the history of the annual interscholastic classic at Carnegie Tech.

Between 75 and 100 high schools in Pennsylvania, Ohio, West Virginia and Maryland are expected to compete. Between 750 and 1000 entries are anticipated.

Prizes will include a cup to be awarded to the school winning the track and field meet; cups to the winners in four different classes of relays; and individual medals for the winners of the events. The luncheon throw will be an optional event this year it is announced and will not count for points toward the meet.

The meet, which is the largest of its kind in Western Pennsylvania, will be staged in the Carnegie Bowl. It will begin at 10:30 a. m. Daylight Savings time.

ARROW SUITS AND TOPCOATS

Thrills Of A Memorable Battle Related By Famous Cub Veteran

By JOHNNY EVERS,
Central Press Special Writer.

For years baseball fans, especially those who can recall the Chicago Cubs of old and the great team that Frank Chance led have held the opinion that the game in which Fred Merkle pulled the famous "base" was the most thrilling contest of the time. They have plenty of reason for thinking this way too in view of the three men who were involved in the play that resulted and the uproar it created throughout the entire baseball world.

It was a great and very important game and as one of the three who helped on that occasion to arrest a pennant right out of the Chicago hands I can remember very distinctly. Yet it was the play off of the tie, the game that forced us to decide the final issue of the campaign that gave me my greatest thrill in baseball.

The finish of the 1904 race was still a couple of weeks off but we started west with hopes revived and though we had to battle the Pirates and the Reds while New York had easier going at the Boston and Philadelphia clubs were tied up with McGraw's men when the schedule closed on October 7. But a decision by the National League directors forced us to go back to the Polo grounds to settle the dispute. This decision was made late at night. We were on the "Twenty-first Century" the following noon and on October 8 a memorable day in every way of the old Chicago Cubs were required to play the Giants on the Polo grounds to settle the dispute.

The greatest crowd in the history of baseball up to that time turned out to watch the struggle. The gates of the park were closed at an early hour and only those who had a pull with the powers that were, managed to get inside after the turnstiles were locked.

The Giants were primed for trouble. This was noticeable when it came time for the Cubs to take their batting practice. Twenty minutes is the allotted period for the visiting club to enjoy a batting drill but the New Yorkers who knew we hadn't had a bat in our hands since Sunday, four days earlier, cut the limit to 14 minutes in spite of our loud protests.

We were supposed to be victims of a frameup. While I was at bat and

one of our second-string pitchers swung them up Joe McGinnity crossed in front of the home plate and struck Frank Chance across the chest with a bat. The intent was to have Chance get in a jam with McGinnity who was about through and of us further use to the Giants' line that both men would be arrested and Chance kept out of the way until

the game was over. But the Cubs' manager was too wise. "I'm going to let you get by with this today," said Chance, "but any time I meet you after this you had better start running." And it's a fact that never after that did McGinnity get any too near him.

It finally came time for the start. Chance had decided to open with Jack Plesner against Matty Jack was naturally invincible against the Giants when right. On this occasion he had a bump on his left arm, the size of an onion and we knew he couldn't go far. But it was a case of psychology with Chance. He figured on starting Jack and letting him go as far as he could. But the first inning was almost a fiasco one for us. Only the quick thinking of Johnnie King saved us from disaster.

For every one of the Polo grounds to see this opening from the Giants' crowd one run and eight have had half a dozen but for the quick-witted catcher, Herzog was on first, Tenney on second with nobody out and Roger Brennehan at bat. Roger twice tried to bunt and failed. He swung at the third and missed. King let the ball drop to the ground. Brennehan lost sight of the fact that he was automatically out and dashed for first with King in pursuit and the New York dugout in an uproar yelling for Brennehan to slow down.

Herzog was up in the air and he ran off first while Tenney was frantically waving him to get back. As soon as he reached first King charged. Herzog down to second bag where both he and Tenney were glaring at each other. He lagged Herzog out, thereby completing a double play unassisted. So Mike Donlin's double

against the right field wall only scored one run. Then Brown was rushed into the box to fight his pitching battle with Mathewson and the greatest duel of the year was on. In the fourth we opened up a bombardment on Matty. Seymour misjudging a line drive from Joe Finker's bat that went for three bases. We got four runs. We held the lead up to the seventh when the Giants began something that nearly caused up a defeat. They had three men on bases with nobody out and Larry Doyle who was nursing a sore foot that he had received a few days earlier in a collision with Hummel at second was sent in to hit for him. He raised a high foul right near the grandstand. A shower of pop bottles and cups went up in the air between the ball and the catcher but King was gone and caught the ball. Afterward, Chance told King that this was one of the greatest plays he ever saw made.

Tenney hit a ball to right center that should have gone for three bases only for a spectacular back-hand catch by Schulte. One run scored but this was not enough. We finally beat the Giants and won the pennant the game ending 4 to 2 in Chicago's favor. And the crowd was so excited that we had to run a gauntlet to the club house.

Chance was struck and knocked down. Browne pounded and on my way to the club house I found myself surrounded by a bunch of hard-looking citizens who told me later on that they were a self-appointed body guard to protect me from the rage of certain disappointed gamblers. So I went to the Polo grounds that night while we were dressing the tin roof sounded like a brass band from the volley of missiles hurled at the doors and windows.

We were lucky to escape without serious injury. Even as it was we had to make our exit by the north side of the park, tear down a couple of fences and beat it across lots to the Highbridge station.

GRIMES-ROOT TO

PITTSBURGH, April 24.—"B-a-l-l-e-t!"

The song of swat resounded here today, luring thousands of western Pennsylvanians from their workaday tasks to Forbes Field, where the Pittsburgh Pirates this afternoon were to show the home folks what manner of ball club the Buccaneers are going to be this season.

Old Burleigh Grimes, Donie Bush's spitting star, will do the pitching honors against the Chicago Cubs. And when the Pirates war horse walks up to the mound he'll pull the lid off the season the Pirates have been away two months preparing for.

Ideal Weather. Ideal baseball weather, clear and sunshiny, was in store for the 35,000 persons expected for the classic. Charlie Root is expected to oppose Grimes for the Cubs on the mound. Donie Bush, who was called to Indianapolis by the death of a brother, was to arrive this morning, to be on hand for the opener.

Mayor Charles H. Kline will toss out the first ball, and then the big show will be on. The Cubs brought with them their "wrecking crew" of Reg. Hornsby, Hazen Cuyler, Hack Wilson, Riggs Stephenson and Charley Grimm, and that outfit was expected to attract additional thousands to the colorful crowd which always is on hand for an opener.

The Pirates themselves are a big attraction this year. They promise to present a formidable threat for the pennant. While most of the team is well known to locals, Earl Sherry, the big first baseman who comes to the Bucs from Sacramento, will come in for close scrutiny by local fans.

When the two champions of the American League in batting say that Mail Pouch is their favorite tobacco—it means something.

"I'd as soon go out on the field without my glove as without a handy package of Mail Pouch," says "Goose" Goslin, who led the American League in batting last year.

And Hank Manush who batted close on his heels says: "Mail Pouch is big league tobacco. It has the flavor of real tobacco—not a lot of padding with over-sweetening. You can't chew out its big taste."

Get wise. Get the best. Get Mail Pouch!

NEW YORK, April 24.—Stake a ball player to a slovenly season three or four years ago and forthwith he wasn't satisfied until he had somebody in a butcher's apron flitting for his tonsils. Today, the enlightened thinkers of the ball field seem to be headed toward the oculist for the be-spectacled Chick Hafey has interested the impulsive young men most strangely with his home runs since the start of the season. And if you don't think so, all you have to do is to tune in on the New York Giants. They estimate that upward of thirty percent of the profession is in need of ocular attention and no less a personage than John McGraw says that most of the batting failures are prompted by defective vision.

A little more of this kind of thing and they'll have three men in every nine gazing pensively upon the national pastime through a set of binoculars. The social standing of the umpire being elevated accordingly. Full well do I remember the time when he was the only blind man on the ball field.

Has Batting Eye. The funny thing about the present situation is that Hafey has knocked the boys off on the strength of a two-day performance. He was hitting only 242 this morning and his .308 of the day before might have slipped down among hitting records somewhere if he failed to get two hits against the Cubs yesterday.

The young man, according to the Giants, said in the south that he never realized how big a baseball was until he had his brow measured for the show windows. He told Bob O'Farrell that his bat felt like a lead pencil in his hands and, for the first four days of the opening series with the Cincinnati Reds, he more than looked the part. He drove in four runs in the first game, scored another in a home run and blew himself to a single. Lucas was the victim of his campaign. Three days later, he hit two more homers off Koop. Kemmer and Zahniser and one of them popped the centerfield wall at Red and held for the first time in history.

Hit Longest Homer. That wallop, measuring 417 feet, started all of the dugouts prying about the phenomena and they haven't stopped yet. In spite of the fact that Hafey has more or less jacked his batting seems to affect him adversely as it does anybody else, glasses or no glasses. Donohue didn't give him a hit the day he worked against the Cards in Cincinnati nor did Bush and Malone on successive afternoons in Chicago.

Plaingrove high school varsity baseball team and the East Brook varsity nine fought eight innings Tuesday evening on the Plaingrove diamond to a 5-5 deadlock. The tie-up will be played off later in the year, according to the announcement made today.

Plaingrove apparently had the jump with them in the pit, as they had garnered their five runs before East Brook got started. The latter outfit made four runs in the sixth. Kwiat and McConnell shared honors on the East Brook pitching bag, while Oakes handled the entire game for the Plaingroves.

With an entry list exceeding that of any other year, more than 3,000 athletes, representing over 550 colleges and schools from every section of the country, will assault track and field records in the thirty-fifth annual University of Pennsylvania relay carnival, April 26 and 27.

In the decathlon championship, which will be held on the 26th, eleven of the best all-around track men in college will compete.

star, and a member of the United States Olympic team last summer, is one of the favorites in this event. His brilliant performance in the indoor septathlon championship held at the University of Illinois, when he broke the record after six of the seven events had been concluded, stamps him as one of the best all-around performers among college men.

But he will have to be at his best to win from the field which includes such names as Leo Sexton, Georgetown's successor to Tony Flansky, and Robert Todd, of Indiana.

Mush Ball Leagues At Washington High

Boys Of School Are Grouped
Into Sections For Spring
Athletics

Spring athletic program opened Monday at the George Washington Junior High school and a busy season is planned for all boys enrolled. A seven-team league in mush ball has been organized.

The league is made up of 93 boys. Forty-nine games will make up the schedule, with six games being played each week. The league will last until school closes. Physical Director Emmett Gillaspie recently issued a call for baseball candidates and the call was answered by some 55 boys. Out of this number only 15 were retained, with the remainder of the boys forming another mush ball league.

Over 100 boys are working out daily on the cinder path in preparation for the track and field day events, which will be held on May 10. From this group of cinder artists the school field and track team will be picked. Each boy entering in any event submitted Mr. Gillaspie a paper on which was written the age, weight and height of the contestant. Through a formula the boys were divided into groups.

The tracksters were divided into three groups, the mush ball boys into two groups. This form of grouping boys for mass athletics is proving very successful. George Washington will have 55 boys from which to pick a football team to compete against the other junior high schools of this city next fall. This number answered the football call for candidates.

Following is the schedule for each day during the week: Monday evenings, baseball practice under Physical Manager R. F. Holt; track practice under Emmett Gillaspie; Tuesday, mush ball under Holt and foot-

Last Evening

"BUCK PRIVATE" McCOLLUM

Buck Private L. C. McCollum, United States Army, New Castle, last evening when he addressed a large crowd of Legionnaires and friends at the Legion Home Association building, at 1000 Main.

He is the guest of the Perry S. Clenden Post of the American Legion, to spend a few days in New Castle. He is speaking to the students of the Benjamin Franklin and George Washington Junior high schools and the Lions Club during the day. Mr. McCollum, a native of his own state, has been in the service since the start of the war, while a member of the famous "Lost Battalion" which was held in a cave in France for a week, and which had a loss of over 300 men.

Mr. McCollum is author of the "History of the Lost Battalion" which is considered one of the outstanding books of the World War, and which has had a sale of over 300,000 copies.

What really happened to the famous "Lost Battalion" and what the boys "over there" thought about during those dull, dreary days, is cleverly portrayed in his book, which is now being sold here by the Perry S. Clenden Post, No. 343, American Legion, as a means of raising funds for relief work and the other various activities which the Legion Post carries out during the year.

Former Resident Dies In Wales

According to word just received from Abilene, Williams, formerly a well known resident of the South Side of this city, died at his home in Wales on April 5. The funeral services and burial took place on April 9.

Mr. and Mrs. Williams left New Castle last August, as he was in poor health and has one desire was to die in the homeland. He had been alone ever since his return there and had been confined to his bed since before Christmas.

Mr. Williams was a brother-in-law of Evan Harris of 129 Sheridan avenue. He was pastor of the First Presbyterian church of East Reynolds street, previous to leaving this city for Wales.

He leaves his wife and two sons in Wales and several nephews and nieces here to mourn his loss.

Of Interesting Things
Around New Castle

Ribbiting is a wonderful sport. It costs nothing and the fighter always knows he had the right idea. Whether it be a bridge game, stringing a power line or unloading a steel girder, the ribbiters are always present.

Ribbiting a bit myself yesterday afternoon. That 40 ton steel girder that came in for the new bridge had to be unloaded and unloading 40 tons of steel in one piece is something of a job.

For a while it looked as though a perfectly good accident was going to be presented but John Ebers seems to know considerable about the whimsies of steel girders.

show went out with his fellow actors. After eating the Scot and casually "Let me take the check for all these dinners."

Surprised somewhat the actors all passed their checks down to him and he paid the bill.

Three days later the troupe venturist was found with his throat cut from ear to ear.

This new bridge will undoubtedly have one good result; and that one, the repaving of North street. Nor will it be before it needs it. There is an irregular design of shell holes or what appears to be shell holes. And widening the street wouldn't hurt a thing.

There is one sure way to get the people together. Feed them. The boards of the Epworth and Grace M. E. churches got together last night for the purpose of further cementing the merger of the two churches and in order to do it held a dinner. A tureen dinner. Which is something like a basket picnic. Everybody rolls their own.

After wrapping oneself around a couple of yards of baked beans and scalloped potatoes and tossing off a few home made buns and a glass or two of jelly one is ready to sign subscription blanks or agree to any conclusion.

This new church is going to be about the Scotch actor who joined a new troupe and after the first night just about as nice a church as Me-

thodism has in this section of the state. It won't be so long now until the dirt begins to fly on the corner of East Washington and Butler and when it does look out for action.

Joining the two churches is also a union of the Army and the Navy. Rev. S. L. Maxwell, pastor of Epworth M. E. church, served as chaplain in the army. Rev. J. L. Pettie of the Grace M. E. church served as a buck private with a Canadian infantry regiment.

Down at the Emmanuel Baptist church the folks welcomed the new minister Rev. E. A. Childs and his wife Tuesday evening. Now there's a sport that Methodists know considerable about. A Methodist's church life is richly interspersed with "hail and farewell." If the minister is a good one he gets passed around. If he isn't he gets passed off. Either way the congregation sees a new face every few years.

Not such a hot crowd at the high school concert. The answer was that it was rather short minutes to get a crowd but the youngsters had a good rehearsal and got a little money for the expense of the trip to Erie.

Now tonight the teachers get together in the George Washington Junior high school and the state educational system will get straightened out at this meeting. At least it should

with 300 and some teachers here all together in one boquet.

Rev. Whilding To Complete Pastorate

Will Preach His Farewell Sermon
At Local Church Next
Sunday Evening

The First Congregational church of this city has accepted the resignation of Rev. Samuel Whilding, as pastor, which was recently tendered, and he will complete his term as pastor of the church here on next Sunday evening. This date will mark the completion of three years as pastor of the church here.

Rev. Whilding will go from here to Jackson county, southern Ohio where he will assume his duties as pastor of the Oakhill Congregational church.

ATTEND CONFERENCE IN PITTSBURGH

Rev. S. L. Maxwell, D. D. pastor of the Epworth M. E. church, was in Pittsburgh today where he attended a regional conference held in the Epworth Methodist church of that city. Dr. F. S. Neigh of Milton street, superintendent of New Castle dis-

trict of Erie conference attended the conference on Tuesday. The meeting will continue until Thursday evening.

Among the other things that usually come up in the spring are the newly paved streets under which the neglected to lay all the pipes needed.
